Volume 22, Number 1

September 6, 2007

Next Meeting- September 11, 2007

A View of Wallace's Line

by Mac Hardy

SEPTEMBER PROGRAM

When: Tuesday, September 11, 2007, 6:30 p.m.

Where: LSU in Shreveport Museum of Life Sciences

The program will be a brief commentary on Mac's recent trip to parts of Borneo, Malaysia, and Indonesia.

UPCOMING FIELD TRIPS AND EVENTS

9th ANNUAL HAYNESVILLE CELEBRATION OF BUTTERFLIES

Claiborne Parish Fairgrounds, Haynesville, LA
Saturday, September 15, 2007, 9:30 a.m. - Until

HAWK WATCH AND BARBECUE

Hubert and Pat Hervey's Farm in Stonewall, Louisiana
Saturday, September 22, 2007, 9:00 a.m. - Until
Trip Leader – Hubert Hervey, hawkeyehub@att.net, 925-9249
Coordinator – Nancy Menasco, nmcpa@aol.com, 868-3255

27th ANNUAL BAYOU BODCAU WILDLIFE AND FORESTRY FESTIVAL

Tom Merrill Recreation Area, Bayou Bodcau Dam and Reservoir, near Bellevue, LA
Saturday, September 22, 2007, 10:00 a.m.-4:00 p.m.

THE BIG SIT!

Sunday, October 14, 2007, Before Dawn 'til After Dark

Coordinator – Nancy Menasco, nmcpa@aol.com, 868-3255

RED RIVER NATIONAL WILDLIFE REFUGE 3rd ANNUAL REFUGE CELEBRATION

Red River National Wildlife Refuge Headquarters Unit, Bossier City
Saturday, October 20, 2007, 8:00 - 3:00 p.m.

Contact – Nancy Menasco, 868-3255, nmcpa@aol.com

LOUISIANA ORNITHOLOGICAL SOCIETY FALL MEETING, CAMERON PARISH, LA FRIDAY, OCTOBER 26 – SUNDAY, OCTOBER 28, 2006

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. Unless otherwise noted, field trips will take place rain or shine, so bring rain gear if the weather's threatening.

9th ANNUAL HAYNESVILLE CELEBRATION OF BUTTERFLIES

Claiborne Parish Fairgrounds, Haynesville, LA
Saturday, September 15, 2007, 9:30 a.m. - Until
 HCOB Director – Loice Kendrick-Lacy, 870-234-4910,
 lkclacy@magnolia-net.com

The festival opens with the Butterfly Parade and concludes in the evening with country, gospel, and bluegrass music. Felder Rushing, gardener, author, and host of Mississippi public radio's "The Gestalt Gardener," returns to this year's festival as does native plant expert and author, Dr. Charles Allen, and Claiborne Parish County Agent, Robin Bridges. Self-taught naturalist Roy Bott will present the topic "Botanical names simplified and plant identification." Dr. Lelia Kelly of the North Mississippi Research and Extension Center rounds out the list of speakers with presentations on landscaping tips and herb gardening. Other highlights include sales of butterfly-related items, take-home butterfly towers, a water conservation display trailer, and a butterfly quilt raffle. Admission is \$2 for adults; \$1 for children 6-18. A downloadable brochure

with the complete schedule is available on the festival website at:

www.claiborneone.org/haynesville/butterfly.html.

HAWK WATCH AND BARBECUE

Hubert and Pat Hervey's Farm in Stonewall, Louisiana
Saturday, September 22, 2007, 9:00 a.m. - Until

Trip Leader – Hubert Hervey, hawkeyehub@att.net, 925-9249

Coordinator – Nancy Menasco, nmcpa@aol.com, 868-3255

Join us for our annual hawk watch and barbecue. The hawk watch will begin at 9:00 a.m. Bring binoculars, scope if you have one, lawn chair, hat, sunscreen, drinks. Lunch will be served around noon. Meat, plates, napkins, utensils, and condiments will be provided by the BSG. **Please RSVP to Nancy Menasco by Thursday, September 27, if you're planning on joining us for lunch. Bring a side dish, salad, or dessert to share.** If you find at the last minute that you will be able to attend, come on out; you won't go hungry.

How to get there: Go south on Linwood Road. Go a couple of miles into DeSoto Parish, pass a Quick Stop (not the name of it but the type of grocery store it is) on the left and turn right onto Ranchette Road. Go one mile, turn left at the T. This is Missile Base Road. Go almost a mile and turn left over the cattle guard that enters the farm. The sign says Hervey Dairy Road. The Hervey house is the first house on the left at the top of the hill.

27th ANNUAL BAYOU BODCAU WILDLIFE AND FORESTRY FESTIVAL

Tom Merrill Recreation Area, Bayou Bodcau Dam and Reservoir, near Bellevue, LA

Saturday, September 22, 2007, 10:00 a.m.-4:00 p.m.

This festival, sponsored by the U.S. Army Corps of Engineers and the Louisiana Department of Wildlife and Fisheries, celebrates National Hunting and Fishing Day and National Public Lands Day. Festival events and exhibits include turkey calling, nature hikes, falconry, arts and crafts, canoeing, sawmilling, shooting, and youth fishing, among others. For more information on the festival, call 318-949-1804, Ext. 101. Admission is free.

THE BIG SIT!

Sunday, October 14, 2007, Before Dawn 'til After Dark

Coordinator – Nancy Menasco, nmcpa@aol.com, 868-3255

Details will be in the October issue of the newsletter.

RED RIVER NATIONAL WILDLIFE REFUGE 3rd ANNUAL REFUGE CELEBRATION

Red River National Wildlife Refuge Headquarters Unit,
Bossier City

Saturday, October 20, 2007, 8:00 - 3:00 p.m.

Contact – Nancy Menasco, 868-3255, nmcpa@aol.com

The Red River Refuge Alliance (the RRNWR Friends group) and the U.S. Fish and Wildlife Service are sponsoring the third annual refuge celebration and catfish fry at the Red River NWR Headquarters unit. There is no charge and the public is invited. Activities will include nature walks and refuge tours; falconry demonstrations; programs on dragonflies, creepy crawlers, and the like; bird banding; activities for children; and a photography contest for adults and children. More information will be in the BSG October newsletter.

Directions to the refuge: From the intersection of US 71 (Barksdale Boulevard) and Jimmie Davis Highway (LA 511) in Bossier City, go south about one-half mile on US 71 and turn right (west) on Sunflower Road. Proceed to the end of the road; the gravel/dirt road through the gate across the cattle gap leads into the refuge. There will be signs leading to the celebration site.

LOUISIANA ORNITHOLOGICAL SOCIETY FALL MEETING, CAMERON PARISH, LA

Friday, October 26 – Sunday, October 28, 2006

After two-and-a-half years, LOS returns to Cameron Parish! The Cameron Motel is open and has about 50-60 rooms. The next closest lodging is in Lake Charles. The Friday and Saturday night meetings will be held in Creole. Information and registration forms for the annual fall meeting are or will be available at the Louisiana Ornithological Society website at: <http://losbird.org/meeting.htm>.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, organized field trips on Saturday and, for the winter meeting, also on Sunday, and a banquet on Saturday night. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October; and the winter meeting is held in different locations around the state, usually the last weekend in January.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, September 1 and 15, October 6, 2007, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available. Join Dennis at the Red River National Wildlife Refuge Celebration on October 20.

Wild Bird Center Anniversary Celebration

Saturday, September 8, 2007, 10:00 a.m.-6:00 p.m.

Drop by for in-store sales and register for prizes. For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

BIRDING MAINLAND AND COASTAL AREAS OF ALASKA IN JUNE 2007

By Jay Huner

Common Redshank at Homer Spit was the bird of the trip for my first birding trip to Alaska. This was the first record of Common Redshank in Alaska. However, this species was “plain” compared to species like Spectacled and King Eiders and the diminutive Bluethroat.

I joined a group of seven avid birders in Anchorage on June 15, 2007 and departed on June 30, 2007 after finding 154 state birds, 32 life North American birds, and 88 year birds. Our trip was organized by the Galveston Ornithological Society and led by naturalist Jim Stevenson.

Destinations included Denali National Park, Fairbanks, Dead Horse at Prudhoe Bay, Anchorage and Cook Inlet with its massive mud flats and 20 foot plus tides, the Kenai Peninsula, Homer Spit, and Seward. We crossed the Yukon River and traveled several hundred miles along the great Alaskan pipeline that originated in the tundra at Prudhoe Bay. Our adventure included a ruined tire 40 miles south of Dead Horse with the next “service station” being located at Cold Foot at the southern base of the Brooks Range. While changing the tire, we saw large animals moving toward us in the distance. Naturally, we were concerned about bears but

were relieved to find that a herd of Musk Oxen was approaching!

This was a birding trip but we saw glaciers, mountain peaks, tundra, taiga forest, and many other scenic landscapes. We had no close encounters with bears but did have to “back off” from a young bull Moose. The impressive mammals we found included Brown (Grizzly) Bear, Caribou, Musk Ox, Moose, Dall Sheep, Killer Whale, Humpback Whale, Sea Lion, Harbor Seal, Sea Otter, Porcupine, Arctic Fox, and Red Fox along with various squirrels and a weasel. We missed finding wolves but I personally was impressed with how fast a Porcupine could get off a road when we almost hit one in a curve north of Denali National Park.

The bus trip into Denali National Park was certainly a naturalist’s treat. We were especially pleased to have good looks at not only the “expected” large mammals but also Rock Ptarmigans, Alaska’s state bird, and two Northern Shrikes and first encountered American Tree and Golden-crowned Sparrows.

Our journey from Fairbanks to Dead Horse took over 20 hours with much of the road being gravel and rough, a problem in a 12 passenger Ford van with very tight suspension. Jim constantly scanned the sky and tops of spruce trees for birds. Even though I was in a back seat, I managed to find our first Bohemian Waxwing on top of a spruce. Because we had such a long trip to Dead Horse, we did not stop very often but found Northern Wheatear and Gray-crowned Rosy-Finch as we passed through the Brooks Range and about 2 and a half hours out of Dead Horse, we stopped at a dip and found two stunning male Bluethroats, one of which was located because it mimicked Jim’s “squeaking” on the opposite side of the road. It was very interesting to find Long-tailed Jaegers patrolling the tundra far from the open sea where most birders add them to their life lists. As we approached Dead Horse, a Bar-tailed Godwit burst from the tundra and flew parallel to us long enough to provide good views.

There is almost no night that far north in June and we arrived at Dead Horse with plenty of light. Buildings are set on gravel pads in the tundra that, except for the snow and ice still present, looks just like an oil field in Louisiana’s coastal marsh. Pools and ponds are everywhere there and the first birds we found were Spectacled and King Eiders along with Long-tailed Ducks. All drakes were in spectacular breeding plumage. And, nothing really topped the those birds, in my opinion, although Tufted and Horned Puffins that we

later encountered in the Seward and Homer Spit areas later in the trip.

The ducks were still present the next day along with other northern specialty birds. We found Common, Red-necked, and Pacific Loons, Glaucous Gulls, Yellow Wagtails, and Snow Buntings. Red-necked Phalaropes were literally all over the place.

Gyrfalcons, Rough-legged Hawks, and Horary Redpolls were specialty birds that we found north of the Brooks Range on the way to and from Dead Horse. Huge herds of caribou grazed close to the highway within 50 miles of Dead Horse, going and coming.

Despite our tire problem, we had enough time at a rest stop at the Yukon River to see Lesser Yellowlegs in the tops of the stunted spruce trees there. They obliged us with their breeding displays and calls. Later, we found a Northern Hawk Owl that perched on top of a spruce and gave us excellent views with spotting scopes and binoculars.

While in the McLaren River area near the origin of the Denali Highway, we had the good fortune to find numerous Arctic Warblers at higher elevation in mountain tundra with good numbers of breeding Wilson’s Warblers. Then, at somewhat lower elevations we found several Smith’s Longspurs including a male in breeding plumage. We viewed and some photographed the bird over a 10 minute period from a distance of about 30 feet.

After our long reverse trip to Anchorage from Dead Horse we spent almost a week in the Kenai Peninsula area working the national forest lands, coastal areas, and making two boat trips, one short one to “bird rocks” at Homer Spit and another from Seward through Resurrection Bay to the glacier at Kenai Fjord and out to the bird colonies at the Chiswell Islands. The Seward area provided good views of the striking Harlequin Ducks.

Special birds, to me, besides the two puffin species and the Common Redshanks at Homer Spit were a lone Fork-tailed Storm-Petrel and a Yellow-billed Loon, both lifers, Northwestern Crow, and both Red-faced (a lifer) and Pelagic Cormorants. Large flocks of Common Murres and Black-legged Kittiwakes were constantly in view. Jim took us to a wildlife viewing area near the air base at Homer where we found a small breeding colony of Aleutian Terns, a treat after seeing hundreds of Arctic Terns on the trip. We also found a “rare” (for Alaska)

male Red-winged Blackbird! Fishermen would have appreciated the huge Halibut at the docks at the harbor.

Forest birds that I was pleased to view (and hear) included Three-toed Woodpeckers, Spruce Grouse, and Varied Thrush. We found a hen Spruce Grouse with its chicks running along a road just after we had viewed and heard several Three-toed Woodpeckers. I was impressed by the ability of the small, hand-sized chicks to fly from the ground and find shelter in nearby trees and bushes. While I had seen several Varied Thrushes in Oregon a year ago, I had never heard their unique bell-toned call. Once heard, it is a call that no one will ever forget. Townsend's Warblers were reasonably common and we had a number of good views of these colorful yellowish warblers. Pine Grosbeaks were somewhat difficult to find but once found, were remarkably approachable and viewable. We searched for White-winged Crossbills and Chestnut-sided Chickadees at different locations on several days. We finally found one chickadee but never found a crossbill although Jim insisted a distant, flying bird was a crossbill.

Along the Kenai coast at Anchor Point we watched several dozen Bald Eagles dispute ownership of halibut offal with far more numerous Glaucous-winged Gulls. Those eagles are "no big thing" for Alaskans! Watching the gull flocks closely allowed us to locate Mew, Thayer's, and Slaty-backed Gulls as well. Because of the extreme tidal range there, we watched large, high-wheeled tractors launch and recover fishing boats from the beach.

Trip Conclusion

We visited the world famous Potter Marsh area a total of four times, twice while in Anchorage and twice going/coming from the Kenai area including 30 June at the conclusion of our trip. The marsh walk ways, unfortunately, were closed for maintenance so we had to "catch as catch can" from roadside pull outs along a very busy two lane "main" highway. Lifers were few but there were plenty of "trip" birds encountered there.

We were too early for salmon runs there or, for that matter, most other locations except for one at the state's fish hatchery in Anchorage on the last day where we watched our only American Dipper feeding near 15-20 pound King Salmon waiting to be allowed to get into the hatchery where they had been hatched and nurtured some years earlier.

In hopes of possibly finding White-winged Crossbills we drove to a high altitude park in the mountains overlooking Anchorage in early afternoon on the 30th. We were foiled, however, by the poor spruce cone crop across the region. However, the last new bird of the trip was perched on a power line about half way down, a Townsend's Solitaire.

Some Other "Special Birds":

Tundra and Trumpeter Swans
 Eurasian Wigeon
 Surf, White-winged, and Black Scoters
 Common and Barrow's Goldeneye
 Red-breasted and Common Mergansers
 Golden Eagle
 Black Oystercatcher
 Pigeon Guillemot
 Marbled and Ancient Murrelets
 Cassin's Auklet
 Olive-sided, Alder, and Hammond's Flycatchers
 Say's Phoebe
 Gray and Steller's Jays
 Common Raven
 Violet-green Swallow
 Black-capped and Boreal Chickadees
 "Singing" Gray-cheeked, Swainson's, and Hermit
 Thrushes
 Common Redpoll

Alaskan Bird List - 2007**Jay Huner**

 House Wren
 Blackpoll Warbler
 White-winged Crossbill

MINUTES OF THE JUNE BOARD MEETING

June 5, 2007

Museum of Life Sciences at LSUS

Board members participating in the meeting were Mac Hardy, Ron Martin, Susan Martin, Jeff Trahan, Nancy Menasco, Amanda Crnkovic, Jim Ingold, Jean Trahan, and Hubert Hervey. Jerry Bertrand was also present.

Board Members – Mac Hardy who is chair of the nominating committee said that Rosemary Seidler, Susan Martin, Ron Martin, Nan Franks and Nancy Menasco will be rotating off of the board. Also Michele Andrews has resigned from the board, so a total of six board members will be needed. Past board members Rosemary Seidler, Jerry Bertrand, Bill Hall and Nancy Menasco have agreed to serve on the board. Club members who have not previously served on the board and have agreed to serve are John Dillon and George Dean. These names will be submitted to the membership at the next regular meeting. These nominations must be approved by the membership. The board then discussed possible officers for next year.

Program – Ron Martin said that next week's program for the regular meeting would be experimental. It will be a plant sale and must be advertised.

Hot Spots – Ron Martin has invoiced the ABA for \$75.00 for 25 copies of the Hot Spots that were to be sold by the ABA at the spring meeting of the ABA in Lafayette, LA.

Brochure – Mac Hardy said that the club has no more brochures and that he often gets requests for them. Mac volunteered to develop a new brochure and produce an examination copy.

Treasurer's Report – Jean Trahan reported that for the month ending May 30, 2007, the club had \$3,141.66 in the bank. In addition, we had \$185.20 and \$333.08 in prepaid expenses at the post office and LSUS printing, respectively. The fund balance is \$3,659.94.

Newsletter – The board spent the rest of the meeting folding newsletters.

 stonewashed green or stonewashed blue at

 \$10.00 each; patches are \$5.00 each.

DUPLICATE BIRD RECORDS

by **Mac Hardy**

I sincerely apologize to all of our BSG Newsletter readers about the mistake in the last newsletter. All of the bird records in volume 21, number 5 (the last issue of that volume) were the records from volume 20, number 10. There were no errors in the data. In this issue (volume 22, number 1) we present two Bird Reports: the correct volume 21, number 5 report and the current volume 22, number 1 report. I am sorry for the inconvenience and confusion that this must have caused.

BIRD REPORT – compiled September 4, 2007

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer’s initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

JUNE NEWSLETTER BIRD REPORT – compiled September 4, 2007

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

Black-bellied Whistling-Duck -- 05/12/2007 PD 1

Wood Duck -- 04/22/2007 BillW 4; 05/12/2007 RS, VL 2

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. Unless otherwise noted, field trips will take place rain or shine, so bring rain gear if the weather's threatening.

THE BIG SIT!

C. BICKHAM DICKSON PARK (RED RIVER EDUCATION AND RESEARCH PARK)

SUNDAY, OCTOBER 14, 2007, BEFORE DAWN 'TIL AFTER DARK

Coordinator – Nancy Menasco, nmcpa@aol.com, 868-3255

Founded by the New Haven, Connecticut, Bird Club and hosted by Birdwatcher's Digest, this will be the 15th Annual Big Sit. Swarovski Optik donates \$500 to the team who gets the "Golden Bird," a bird selected by random drawing from all birds sighted. The winning circle then chooses a non-profit environmental-based organization to be the recipient of the \$500.

For the seventh straight year, BSG sitters will sit the Big Sit at C. Bickham Dickson Park. Last year's total of 50 species was the lowest total since we began sitting in 2001 except for the Big Sit of 2004 when it rained all day. We have reported a total of 97 species in six years: 2001 – 53 species; 2002 – 68 species; 2003 – 70 species; 2004 – 39 species; 2005 – 70 species; 2006 – 50 species.

The Big Sit officially begins at midnight and ends 24 hours later; BSG sitters have always been in the field by 6:30 a.m., manning the circle continuously until at least 7:30 p.m. Any Sitters wishing to man the circle before 6:30 a.m. will need to contact Nancy Menasco so we can make arrangements to let you in the gate.

Sitters may come and go at will. Park in the parking lot next to the old horse barn. Signs will lead you to our circle. The circle will be in the field around the first curve of the gated road that leads to the back of the park. We will have access to the restrooms in the old office building. In case of rain, the circle will be located on the covered porch of the old office building. For more background on The Big Sit, go to <http://www.birdwatchersdigest.com/bigsit.html>.

What to bring: binoculars, scope, field guides, chair, hat, mosquito repellent, sunscreen, drinks, breakfast, lunch, supper, snacks.

RED RIVER NATIONAL WILDLIFE REFUGE 3rd ANNUAL REFUGE CELEBRATION

Red River National Wildlife Refuge Headquarters Unit,
Bossier City

Saturday, October 20, 2007, 8:00 - 3:00 p.m.

Contact – Nancy Menasco, 868-3255, nmcpa@aol.com

The Red River Refuge Alliance (the RRNWR Friends group) and the U.S. Fish and Wildlife Service are sponsoring the third annual refuge celebration and catfish fry at the Red River NWR Headquarters unit. There is no charge and the public is invited. Activities will include nature walks and refuge tours; falconry demonstrations; programs on dragonflies, creepy crawlers, and the like; bird banding; activities for children; and a photography contest for adults and children. For more information and a schedule of activities, visit the Alliance website at www.redriverrefugealliance.org.

Directions to the refuge: From the intersection of US 71 (Barksdale Boulevard) and Jimmie Davis Highway (LA 511) in Bossier City, go south about one-half mile on US 71 and turn right (west) on Sunflower Road. Proceed to the end of the road to the refuge entrance.

**LOUISIANA ORNITHOLOGICAL SOCIETY
FALL MEETING, CAMERON PARISH, LA
Friday, October 26 – Sunday, October 28, 2006**

After two-and-a-half years, LOS returns to Cameron Parish! The Cameron Motel is open and has about 50-60 rooms. The next closest lodging is in Lake Charles. The Friday and Saturday night meetings will be held in Creole. Information and registration forms for the annual fall meeting are or will be available at the Louisiana Ornithological Society website at <http://losbird.org/meeting.htm>.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, organized field trips on Saturday and, for the winter meeting, also on Sunday, and a banquet on Saturday night. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October; and the winter meeting is held in different locations around the state, usually the last weekend in January. The next winter meeting will be held in Alexandria.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, October 6, 2007, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available. Join Dennis at the Red River National Wildlife Refuge Celebration on October 20.

MINUTES OF THE JULY BOARD MEETING

July, 2007

Internet Email Meeting

The board had planned to have a board meeting immediately following the June 12 regular club meeting to elect officers. However, at that time the board did not have quorum. So, the president Ron Martin asked to schedule another meeting of the board to select officers.

By an email vote of 6 to 3 on July 5, the board selected to do the meeting by email in lieu of scheduling a meeting. The following nomination was made and seconded: President, Amanda Crnkovic; Vice President, Mac Hardy; Secretary, Jeff Trahan; Treasurer, Jean Trahan. Another nomination had been made where Mac Hardy would be President and Amanda Crnkovic would be Vice President. However, each of them declined those positions. Nominations closed July 7. Board members voted by email and on July 19, the president disseminated the results of the vote: President, Amanda Crnkovic; Vice President, Mac Hardy; Secretary, Jeff Trahan; Treasurer, Jean Trahan.

MINUTES OF THE REGULAR MEETING

September 11, 2007, 7:00 p.m.

Museum of Life Sciences at LSUS

Program – The first speaker of the year was Mac Hardy. The title of his talk was: “A View from Wallace’s Line.” He talked about a trip he took this August to Borneo, Malaysia, and Indonesia. Mac could not complete his presentation because of problems with the computer projection system.

Meeting Time – The president, Amanda Crnkovic, said that she would like to start the meeting one-half hour earlier. A motion was made to serve refreshments at 6:00 p.m. and start the presentation at 6:30 p.m., beginning with the October meeting. The motion was seconded and passed.

Least Terns – Hubert Hervey reported that he continued to do **Least Tern** surveys on the Red River. He was on the river ten times this season and saw a total of 41 terns and very little evidence of nesting. On the July 4 survey of the Red River, no terns were found from Index, Arkansas, to the Mississippi River. The reason for the lack of terns is that the river has been very high during May, June, July and August, and the sand bars which provide nesting spots for the terns have been under water.

Field Trips – Hubert Hervey said that the annual fall hawk watch would take place on his farm on September 22. If you go you should think about bringing a side dish. You must tell Hubert that you will be there so that preparations can be made for the watch. Nancy Menasco reported on other field trips. The Haynesville Butterfly Festival will take place September 22 in Haynesville. The spring LOS meeting will be held in Cameron Parish this year on the last weekend of October. The meeting will take place in Creole, LA.

The LOS winter meeting will be held in Alexandria. Finally, the Big Sit will take place in Bickham Dickson Park on October 14.

Hospitality – Amanda Crnkovic reminded everyone that she is the hospitality chair in addition to being president. She suggested that we should do hospitality differently this year. She asked that volunteer club members be responsible for refreshments at meetings. She passed around a sign-up sheet so that club members could sign up for a specific meeting at which they would be responsible for refreshments.

Membership – Mac Hardy has asked members to pay their dues. He reported that there are 205 active members.

Newsletter – Jim Ingold provided many excuses for the newsletter being late for the first meeting. He said that it should be on time from now on.

Publicity – Amanda Crnkovic said that the club needs someone to be chair of the publicity committee and asked if someone would volunteer. Rachel Demascal volunteered.

Bird Talk – John Dillon reported a **Cooper's Hawk** outside of Raising Cane. Roy Henderson said that he saw a totally white dove or pigeon in the field near Lowes that had a tuft on its head and a band across its tail. Jean Trahan reported many herons, egrets ibis, and peeps at Bickham Dickson Park. This has occurred because of the high water in the park providing habitat for these birds. She said that you would have to walk into the park from the locked gate to see the birds. Nan Franks saw **Canada Geese** near Champion Lake. Nancy Menasco reported that this last summer was a great summer for **Baltimore Orioles**. She said that you have to be in the river bottom land to be able to attract these birds and she explained how she did that using a hummingbird feeder. Steve Bankston saw a **Greater Roadrunner** on LA5 between Kickapoo and Keatchie.

TREASURER'S REPORT: JUNE, 2007

Shreveport Society for Nature Study, BSG

BSG

T-shirts and Patches

 BSG t-shirts and patches are in and can be purchased at the LSUS Museum of Life Sciences. T-shirts are available in stonewashed green or stonewashed blue at \$10.00 each; patches are \$5.00 each.

BIRD REPORT – *compiled October 3, 2007*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

Next Meeting - November 13, 2007

Winter philopatry of sparrows in northeast Texas: A ten year bird banding study

by Jim Ingold

NOVEMBER PROGRAM

When: Tuesday, November 13, 2007, 6:00 p.m.

Where: LSU in Shreveport Museum of Life Sciences

Jim will be presenting data on an ongoing ten year study of winter philopatry of sparrows and other songbirds in northeast Texas. The banding site is located in the Caddo Lake watershed in Texas.

UPCOMING FIELD TRIPS AND EVENTS

RED RIVER NATIONAL WILDLIFE REFUGE PINTAIL NABORS TRACT, DESOTO PARISH

Saturday, November 24, 2007, 7:30 a.m.

Trip Leader – Nancy Menasco, 868-3255,
nmcpa@aol.com

WINTER/CHRISTMAS BIRD COUNTS:

Contact the compiler listed below for each count or sign up at a BSG meeting. Participants will be assigned an area or teamed with other birders. Beginning birders are encouraged to participate. Bird counts are fun and a great way to see and learn to identify lots of birds with the assistance of seasoned birders.

CADDO LAKE WARM-UP WINTER BIRD COUNT

Saturday, December 1, 2007

Compiler – Dorothy Metzler of Northeast Texas Field Ornithologists (NETFO)

Louisiana Coordinator – Jim Ingold, 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

SHREVEPORT CHRISTMAS BIRD COUNT

Saturday, December 15, 2007

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

CLAIBORNE CHRISTMAS BIRD COUNT

Tuesday, December 18, 2007

Compilers – Nancy Menasco, 868-3255, nmcpa@aol.com, and Mary Ellen (M.E.) Lewis, 318-927-9280, melewis180@aol.com

NATCHITOCHE CHRISTMAS BIRD COUNT

Saturday, December 22, 2007 (Tentative date)

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

BOSSIER – CADDO - BIENVILLE CHRISTMAS BIRD COUNT (BCBCBC)

Saturday, January 5, 2008

Compiler – Paul Dickson, 797-7900 (W), 798-1000 (H), Paul@morrisdickson.com

UPCOMING FIELD TRIPS AND EVENTS

By Nancy Menasco

UPCOMING FIELD TRIPS AND EVENTS

By Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling or caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. Unless otherwise noted, field trips will take place rain or shine, so bring rain gear if the weather's threatening.

**RED RIVER NATIONAL WILDLIFE REFUGE
PINTAIL NABORS TRACT, DESOTO PARISH***Saturday, November 24, 2007, 7:30 a.m.*

Trip Leader – Nancy Menasco, nmcpa@aol.com,
868-3255,

Located near Smithport Lake in DeSoto Parish, the 1,400-acre Pintail Nabors tract is the newest addition to the Red River National Wildlife Refuge. While much of the previously acquired refuge acreage is agricultural land that must be restored, Pintail Nabors is a mature cypress-tupelo forest. The only road is very primitive; if the weather has been wet, we will not be able to drive the road but will be walking in, so bring your boots. It will be some time before Pintail Nabors is open to the public, so you won't want to miss the opportunity to visit this beautiful area.

WINTER/CHRISTMAS BIRD COUNTS:

Contact the compiler listed below for each count or sign up at a BSG meeting. Participants will be assigned an

area or teamed with other birders. Beginning birders are encouraged to participate. Bird counts are fun and a great way to see and learn to identify lots of birds with the assistance of seasoned birders.

CADDO LAKE WINTER WARM-UP BIRD COUNT**Saturday, December 1, 2007**

Compiler – Dorothy Metzler of Northeast Texas Field Ornithologists (NETFO)

Louisiana Coordinator – Jim Ingold, 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

The BSG will once again count birds in the Louisiana portion of the circle. Participants will meet at a to-be-determined location to call the list. If you are unable to attend, you may meet Jim at Horace Downs Park near the Caddo Lake Dam around 4:00 p.m. to turn in your list.

SHREVEPORT CHRISTMAS BIRD COUNT**Saturday, December 15, 2007**

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W),
lyon5516@bellsouth.net

Participants in this count, the oldest continuously run count in Louisiana; we will meet at a to-be-determined location for supper and to call the list.

CLAIBORNE CHRISTMAS BIRD COUNT*Tuesday, December 18, 2007*

Compilers–Nancy Menasco, nmcpa@aol.com, 868-3255, and Mary Ellen (M.E.) Lewis, 318-927-9280,
melewis180@aol.com

Participants will meet at the home of M.E. and Fred Lewis on Lake Claiborne for supper and to call the list. Contact Nancy or M.E. for information in regard to lodging for Monday and/or Tuesday night. Most of the free lodging is already reserved, but there *may* be something available. Lake Claiborne State Park (1-877-226-7652) also has very nice cabins available at \$65 per night.

NATCHITOCHE CHRISTMAS BIRD COUNT**Saturday, December 22, 2007 (Tentative date)**

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W),
lyon5516@bellsouth.net

BOSSIER – CADDO - BIENVILLE CHRISTMAS BIRD COUNT (BCBCBC)**Saturday, January 5, 2008**

Compiler – Paul Dickson, 797-7900 (W), 798-1000 (H),
Paul@morrisdickson.com

Participants will meet at Paul Dickson's home at 10455
Ellerbe Road (across from Holy Angels) for supper and
to call the list.

LOS WINTER MEETING, ALEXANDRIA, LA**Friday, January 25 - Sunday, January 27, 2008**

The annual winter meeting of the Louisiana
Ornithological Society returns to central Louisiana.
With only a two-hour drive, hopefully many BSG
members will be able to attend. Information and
registration forms for the meeting will be available on
the Louisiana Ornithological Society website at
www.losbird.org/meetings.htm. Headquarters for the
meeting is the Clarion Hotel, 2716 North MacArthur
Drive, Alexandria, LA 71303. A block of 30 rooms has
been reserved; the rate is \$79.99 plus tax and includes
breakfast. Call 318-487-4262 or 800-540-1880 to make
reservations. Please mention that you are with the
Louisiana Ornithological Society.

There will be field trips on Saturday and Sunday.
Planned are trips to Cheneyville for Sandhill Cranes,
Catahoula Lake, the NSU Aquaculture Research Center,
Lost Bottoms Bayou and Kincaid Lake, and several
Grant Parish National Forest locations for Red-cockaded
Woodpecker.

The program on Friday night will take place at the
Clarion Hotel and will include presentations by Laura
Palasz on her research on Henslow's Sparrows in
Louisiana and Jonathon Valente on his research on King
Rails in Louisiana. The Saturday night banquet and
program will be held at the Cajun Landing restaurant.
Steve Shunk will speak on woodpecker conservation,
including the trends of the Red-cockaded Woodpecker in
Louisiana as well as in the U.S. He will also speak on
RAMSAR sites, including where they are and their
significance.

Membership in LOS is not required to participate in any
of the LOS meetings, but you are encouraged to join to
support the activities of our state society. Annual dues
are \$20 for a regular membership and \$25 for a family
membership. LOS is for birders of all levels, amateur or
professional. Three meetings are held each year with
programs on Friday and Saturday nights, organized field

trips on Saturday and, for the winter meeting, also on
Sunday, and a banquet on Saturday night. The spring
meeting is the last weekend in April; the fall meeting is
the last weekend in October; and the winter meeting is
held in different locations around the state, usually the
last weekend in January.

WILD BIRD CENTER EVENTS**Beginner Bird Walks***Saturday, November 3 and 17, 2007, 8:00-10:00 a.m.*

The Wild Bird Center conducts field trips the first and
third Saturday of every month, weather permitting.
Meet at the store in the University Place Shopping
Center (also known as the Target Shopping Center) at
the corner of Youree Drive and East 70th Street.
Destinations vary according to local sightings and may
include local parks, country roads, or a great backyard.
Loaner binoculars are available.

There will be no Saturday bird walks during December.

For more information on any Wild Bird Center event,
call Dennis or Janice Forshee at the Wild Bird Center,
318-797-BIRD (2473).

REPORT OF LEAST TERN SURVEYS, 2007**By Hubert Hervey**

Ten trips on the Red River by boat were made during
June, July, August and September, 2007 by the reporter.
The main focus of report for this season is that the
extreme rain event of this summer caused the failure of
Least Terns to nest on the Red River. This is the first
time known to me of such complete failure.

In June, 41 Least Terns were counted, primarily in pairs
sitting on the flat topped buoys of the navigation
channel. Thirty-two adult Least Terns were present in
Pool 5 waiting for the water level to lower and sandy
islands to emerge. Some of these birds were seen on one
strip of sand near Hamel's Park. Two birds were counted
flying near the Hwy 2 Bridge, where a very small sandy
spit was all that remained of a location where thirty-two
terns had nested in 2005. Six birds were present in Pool
2 at the Boyce colony location where one bird had
scraped a nest in the highest peak of the dredged gravel,
but no eggs were present. Two days later, this site was
under water.

In July, nearly all terns had left the river by the 23rd of July as high water continued. Four Least Terns were counted near Shreveport, in Pool 5. None were present anywhere else in the survey area from Doddridge, Arkansas south to Alexandria, Louisiana. You will have noted that the number of terns reported here is hundreds of birds less than any previous report.

In August, the count was run late in the month in hopes the water level had fallen enough to reveal suitable nesting habitat, but the counts run on the 27th and 28th showed that all Least Terns had left the river. A count was made in Arkansas on August 23rd and 24th covering about 100 miles of river from Index south to the state line. No terns were observed, however, seven islands that had been used in previous years by nesting terns were emerging to a height of one to two feet above river level. These islands were in excellent condition, scoured clean by the spring and summer high water conditions, with no vegetation remaining. These should provide excellent nesting habitat for a few years.

My opinion is that this summer's rain event over the Oklahoma and Texas portions of the Red River Watershed amounted to at least a 100 year event. Ernie Etheredge, Red River and Hydrologist Specialist with the US Department of Commerce, Weather Service in Shreveport, in personal conversation, called this summer's high water event, a 500 year event. Only one time in history, 1849, do records exist for a similar sustained summer-long high water level on the Red River. "At the very least, the summer high water level during 2007 for the months of May, June, July and August, represent a 160 year interval between comparable high water levels at this season," said Ernie Etheredge.

Gulf South Research of Baton Rouge does the Least Tern Survey of the Red River from Denison Dam to Index. In conversation with their biologist, I learned that they did not run any surveys this year due to the high water. He stated that their past experience shows there would be no exposed sand as nesting habitat for Least Terns. My surveys of the Red River from Index, Ark to Boyce, La, combined with the Gulf South biologist's convince me that it is safe to say that no Least Terns were raised on the Red River in the summer of 2007 from Lake Texoma to the Mississippi River. A very high probability is that no nesting occurred anywhere, neither Oklahoma nor Arkansas. However, river levels along the huge nesting colonies of the Mississippi River were satisfactory for the terns to nest.

As a result of this year's nesting failure, a unique opportunity exists for next year. That is, to determine the annual loss of adult least terns, since no young were added to our area population. Sandy islands, higher than in previous surveys, have been reported by Wildwood Dean in the Texas, Oklahoma areas, and I have seen beautiful, clean scoured islands in both Arkansas and Louisiana since the water have receded. This year's survey was supported by the Louisiana Department of Wildlife and Fisheries.

BSG Big Sitters Carry On the Tradition

By Nancy Menasco

This year's Big Sit, held on Sunday, October 14, 2007, at C. Bickham Dickson Park in Shreveport, saw the absence of many of our regular Sitters but those of us who remained found the strength to carry on anyway. Sitters, or Standers, this year included Charlie Lyon and Dennis Forshee, who were first to arrive on the scene, followed by Jerry Bertrand and me, and then Paul Miliotis, Jeff and Jean Trahan, Kevin Hunter, Mark Wilson, Terry Davis, and Amanda Crnkovic-Lewis. Laura (whose last name I don't know), who had heard about the Sit at the Bird Study Group meeting, joined us about 6:45 a.m. for a couple of hours.

The first bird of the day was **Eastern Screech-Owl** at 6:26 a.m. The usual scenario regarding the time period of the first observation of a species held true again this year. Fifty species out of a total for the day of 64 species were either seen or heard by 9:00 a.m. At 11:10 a.m., 56 species had been counted when the mid-day doldrums set in. Paul Miliotis and I were left to hold down the fort and not until over two hours later did the 57th species, **Anhinga**, materialize. Kevin Hunter joined Paul and me shortly afterwards but another two hours would pass before the 58th species, **Red-shouldered Hawk**, made a brief appearance. It was so quiet that at least two of we three Sitters took a nap during the seemingly interminable wait between sightings.

We would average a little better than one species an hour for the next five species, **Northern Harrier**, **Cliff Swallow**, **American White Pelican**, **Western Kingbird**, and **Green Heron**. During that period, Jeff Trahan rejoined us followed by Terry Davis and Mark Wilson. Amanda Crnkovic, whose wedding to Jerome Lewis took place the day before the Big Sit, demonstrated her commitment to birding and science by showing up for the last hour or so of the Sit. The last bird of the day, **American Woodcock**, was spotted by Jeff at 7:15 p.m.

For the first time in the seven-year history of the Big Sit at C. Bickham Dickson Park, both **American Crow** and **Cooper's Hawk** are missing from the list although we did add seven new species. And while several species, including **American Robin** and an assortment of woodpeckers, kept us company most of the day, the woods surrounding us were mostly unproductive. The Chinese tallow trees that have gradually replaced the open area of tall cottonwood snags and willows along the road beside the Sit area were almost completely devoid of birds. You can find the complete list of species counted this year, including numbers and time of day (in 24-hour time) a species was first observed, on the chart included in this newsletter.

DECEMBER MEETING ANNUAL HOLIDAY DINNER AND AUCTION

A sign-up sheet will be available at the November meeting for bringing side dishes. The Bird Study Group will provide the meat and drinks.

Remember to bring auction items to the November meeting or bring them to the Museum of Life Sciences at least a week before the party.

BIRD REPORT – *compiled October 31, 2007*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

Next Meeting - December 11, 2007

ANNUAL CHRISTMAS PARTY AND AUCTION

DECEMBER PROGRAM

When: Tuesday, November 13, 2007, 6:00 p.m.

Where: LSU in Shreveport Museum of Life Sciences

The Shreveport Bird Study Group members, guests, and friends will gather for the annual Christmas Potluck Dinner and Auction on Tuesday, December 11th, at the LSUS Museum of Life Sciences. Festivities will start at 6:00 p.m. with a silent auction where everyone can place bids on the many bird-related items and knick-knacks. Next will be a potluck dinner where the club will furnish the meat and beverages and members are asked to bring salads, vegetables, casseroles, breads, or desserts to round out the feast. Our famous auctioneer, Hubert Hervey, has graciously agreed to serve us once again to raise funds for the club as well as provide us with great entertainment. Participation in this auction is always great fun.

Be sure to mark this special occasion on your calendar and come share your favorite holiday potluck dish with us. If you are unsure of what to bring, you can call Amanda Crnkovic at the museum (797-5338) to find out what is needed. Don't forget to bring your checkbook or lots of cash for the auction.

UPCOMING FIELD TRIPS AND EVENTS

SHREVEPORT CHRISTMAS BIRD COUNT

Saturday, December 15, 2007

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

CLAIBORNE CHRISTMAS BIRD COUNT

Tuesday, December 18, 2007

Compilers – Nancy Menasco, 868-3255, nmcpa@aol.com, and Mary Ellen (M.E.) Lewis, 318-927-9280, melewis180@hughes.net

NATCHITOCHE CHRISTMAS BIRD COUNT

Saturday, December 22, 2007

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

UPCOMING FIELD TRIPS AND EVENTS**By Nancy Menasco**

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. Unless otherwise noted, field trips will take place rain or shine, so bring rain gear if the weather's threatening.

CHRISTMAS BIRD COUNTS:

Contact the compiler listed below for each count or sign up at a BSG meeting. Participants will be assigned an area or teamed with other birders. Beginning birders are encouraged to participate. Bird counts are fun and a great way to see and learn to identify lots of birds with the assistance of seasoned birders.

SHREVEPORT CHRISTMAS BIRD COUNT**Saturday, December 15, 2007**

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

Participants in this count, the oldest continuously run count in Louisiana, will meet at a to-be-determined location for supper and to call the list.

CLAIBORNE CHRISTMAS BIRD COUNT*Tuesday, December 18, 2007*

Compilers – Nancy Menasco, 868-3255, nmcpa@aol.com, and Mary Ellen (M.E.) Lewis, 318-927-9280, melewis180@hughes.net

Participants will meet at the home of M.E. and Fred Lewis on Lake Claiborne for supper and to call the list. Contact Nancy or M.E. for information in regard to lodging for Monday and/or Tuesday night. Most of the free lodging is already reserved, but there *may* be something available. Lake Claiborne State Park (1-877-226-7652) also has very nice cabins available at \$65 per night.

NATCHITOCHEs CHRISTMAS BIRD COUNT**Saturday, December 22, 2007**

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), lyon5516@bellsouth.net

BOSSIER-CADDO-BIENVILLE CHRISTMAS BIRD COUNT (BCBCBC)**Saturday, January 5, 2008**

Compiler – Paul Dickson, 797-7900 (W), 798-1000 (H), Paul@morrisdickson.com

Participants will meet at Paul Dickson's home at 10455 Ellerbe Road (across from Holy Angels) for supper and to call the list.

OWL PROWL*Saturday, January 19, 2008, 3:00 p.m.*

Leader – Nancy Menasco, 868-3255, nmcpa@aol.com

Meet at the LSUS Museum of Life Sciences. The Bayou Pierre Unit of the Red River National Wildlife Refuge is the tentative destination but is subject to change. We will see what other birds we can find before the sun goes down.

**LOS WINTER MEETING, ALEXANDRIA, LA
Friday, January 25 - Sunday, January 27, 2008**

The annual winter meeting of the Louisiana Ornithological Society returns to central Louisiana. With only a two-hour drive, hopefully many BSG members will be able to attend. Information and registration forms for the meeting will be available on the Louisiana Ornithological Society website at www.losbird.org/meetings.htm. Headquarters for the meeting is the Clarion Hotel, 2716 North

MacArthur Drive, Alexandria, LA 71303. A block of 30 rooms has been reserved; the rate is \$79.99 plus tax and includes breakfast. Call 318-487-4262 or 800-540-1880 to make reservations. Please mention that you are with the Louisiana Ornithological Society.

There will be field trips on Saturday and Sunday. Planned are trips to Cheneyville for Sandhill Cranes, Catahoula Lake, the NSU Aquaculture Research Center, Lost Bottoms Bayou and Kincaid Lake, and several Grant Parish National Forest locations for Red-cockaded Woodpecker.

The program on Friday night will take place at the Clarion Hotel and will include presentations by Laura Palasz on her research on Henslow's Sparrows in Louisiana and Jonathon Valente on his research on King Rails in Louisiana. The Saturday night banquet and program will be held at the Cajun Landing restaurant. Steve Shunk will speak on woodpecker conservation, including the trends of the Red-cockaded Woodpecker in Louisiana as well as in the U.S. He will also speak on RAMSAR sites, including where they are and their significance.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, organized field trips on Saturday and, for the winter meeting, also on Sunday, and a banquet on Saturday night. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October; and the winter meeting is held in different locations around the state, usually the last weekend in January.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, January 5 and 19, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather

permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

Minutes of the Regular Meeting

October 9, 2007, 6:30 p.m.

Museum of Life Sciences at LSUS

Program – Janis Harrison discussed her 2005 birding trip to Colorado.

Field Trips – Nancy Menasco said that the Big Sit would take place Saturday, October 14, in Bickham Dickson Park. Also on the agenda was the open house at the Red River Refuge Headquarters Unit on Saturday, October 20. At the open house Larry Raymond will give a talk on attracting wildlife with plants and Paul Miliotis will give a talk on dragonflies.

Membership – Mac Hardy reported that there are 85 paid members and 94 gratis members.

Bird Talk – Amanda Crnkovic said that there have been lots of wading birds at Bickham Dickson Park. Jean Trahan also reported **Common Moorhens** at the park. Jim Ingold learned from LABIRD that there are two flamingos in Cameron Parish in Calcasieu Lake. One is a **Greater Flamingo** and the other a **Caribbean Flamingo**. Jerry Bertrand saw a Bald Eagle in a tree at Red Ball Oxygen. Steve Bankston saw a **Greater Roadrunner** on LA-5 between Kickapoo and Keatchie. Paul Miliotis has been seeing **Red-breasted Nuthatches** in East Texas. He expects that we'll see many of them this winter. Nancy Menasco reported ten **American Kestrels** and a **Merlin** at the Louisiana Hill Farm Experiment Station.

Minutes of the Regular Meeting
November 9, 2007, 6:30 p.m.
Museum of Life Sciences at LSU

Program--Jim Ingold spoke about his project of bird banding in eastern Texas. The title of his presentation was "Winter philopatry of sparrows in NE Texas: a ten year bird banding summary."

Announcements—Amanda Lewis reminded everyone that the Christmas party will be held at the next meeting which will be a dinner and an auction. The BSG will provide meat and drinks. Club members will provide other items for the dinner and for the auction. Hubert Hervey will offer a half day trip on the upper Red River as an item in the auction. Amanda then thanked Dennis Forshee for the refreshments at this meeting. She then proposed a competition for the best Christmas tree ornament. Details for this contest will be in the next newsletter.

Membership—Mac Hardy said that he had BSG stickers and magnets to give out. He reported that the Kroger card program would terminate at the end of this year, but that it might be replaced with another program. He urged members to use the Kroger card until the end of the year because it provides income for the club. Mac said that he produced a new membership list of all people who have been members this century and urged members to pick up a copy if they needed one.

Treasurer's Report -- Jean Trahan reported that on October 31, the club had \$5,072.71 in the bank. In addition we had \$431.55 and \$842.43 in prepaid expenses at the post office and LSU printing, respectively. The fund balance is \$6,346.69.

Field Trips – Nancy Menasco said that there is a field trip scheduled for Saturday, November 24, but that she did not know at this time exactly what it would be. The schedule for Christmas Bird Counts (CBC) is as follows: Caddo Lake warm up count, December 1; Shreveport CBC, December 15; Claiborne CBC, Tuesday, December 18; Natchitoches CBC, December 22; and the BCBCBC, January 5. Nancy announced that the LOS winter meeting will be held in Alexandria.

Calendars—Nancy Menasco then asked club members if they would like to receive a calendar from the Barataria Terrebonne National Estuary Program (BTNEP). She described the calendar and said that each member would receive a calendar from BTNEP if the club provided a membership list to the organization.

The list would not be used for anything by BTNEP except for mailing these calendars to the membership. A motion was made to provide BTNEP with a membership list. The motion was then seconded and approved by the membership.

Bird Talk – Jim Ingold reported that Charlie Lyon saw three **Chestnut Collared Longspurs** at the sod farm on Sentell Road. Terry Davis reported late dates for **Broad-winged Hawk**. Nancy Menasco saw two male **Scissor-tailed Flycatchers** on US Highway 84 where it crosses Bayou Pierre. Jim Ingold then said that the late date for the flycatchers is in December. Shirley Huss reported hearing a **Bell's Vireo** in Bickham Dickson Park; however, she did not actually see it. Finally, Amanda Crnkovic saw a **Greater Road Runner** on Bert Kouns Industrial Loop near its intersection with I-49.

BSG Board Meeting
September 4, 2007; 7 p.m.
Agenda

Open Meeting 7:05 p.m. Board Members in attendance: Amanda Crnkovic, Mac Hardy, Jim Ingold, Rosemary Siedler, Nancy Menasco, Jerry Bertrand, Bill Hall, and John Dillon

Committee Reports

Beginning birders: Field trips held the first and third Saturdays of each month, trips leave from the Wild Bird Center.

Bird Alert: Non-members on list? Board agreed that it was okay to have nonmembers on the bird alert.

Bird Hot Spots: Mac reported that we have had some sales of Hot Spots. Jerry asked for a copy of the Hot Spots to post electronically on the website.

Bird Records: There was a big bird report printed this time in the September newsletter, because the wrong report was produced for the June newsletter and the September issue will include the correct June report and those sightings for the September issue. Mac said he spends 6 plus hours each issue entering bird records. He inquired if the BSG could pay someone to enter these records. Mac made a motion to hire someone at minimum wage to enter bird records for the BSG. Jerry seconded the motion. A vote carried in favor of the motion, with all yes votes. The board suggested forming a committee to address the long-term status of the records contained in our database. Jim, Jerry and Mac

will start the committee. An announcement will be made at a regular meeting to ask for additional members.

Field Trips: annual hawk watch and BBQ will be September 22 at the Hervey's farm. Butterfly festival will be September 15th in Haynesville, the Big Sit is scheduled for October 14th. There was a discussion of moving the Big Sit location from C. Bickham Dickson Park to the Red River Refuge. The big Sit will take place at C. Bickham-Dickson.

Fund Raising: Door prizes are needed for the monthly meeting. Suggestions were made to have the plant sale in May and not June and to draw tickets to see who has first choice and to price each plant. Several suggestions were made for the Christmas auction. Suggest items were antiques, original paintings, bird photography, or rare books for auction.

Hospitality—Amanda suggested having a monthly meeting host. A host would bring snacks and set up the snack area for a monthly meeting.

Library: A volunteer is needed to work in the BSG library.

Newsletter: Jim Ingold said the newsletter would be ready to print and fold on Thursday and to mail on Friday.

Programs: Mac Hardy will present the September program. He will discuss his trip to the Borneo region.

Publicity: Amanda will ask at the next meeting for a volunteer to chair this committee.

Website: Our yearly charge for posting the web page is \$95.40. Payment options for this fee were discussed.

Old Business

Nancy made a motion to renew our \$100 membership in the Red River Refuge Friends Group. Jerry seconded the motion. The motion carried, with all yes votes.

New Business

Discussion on meeting start time. John Dillon suggests making the monthly meeting start 30 minutes earlier. A vote will be made at the general meeting.

Judge for the best bird project at science fair (L. Adrion volunteered)

Linda Adrion suggested a discussion on a program to present to an elementary school class (5th grade)

The Baton Rouge Audubon Society sent us a Thank You for our contribution.

Meeting Closed at 8:16 p.m.

BSG Board Meeting
November 6, 2007; 7 p.m.

Seven board members were in attendance: Amanda Lewis, Mac Hardy, Jim Ingold, Jerry Bertrand, Nancy Menasco, Silviera Hunt, and Hubert Hervey. A quorum was not reached; therefore no votes were made during the meeting only discussion.

Committee Reports

Field Trips: Nancy stated that LOS will have its winter meeting and have a Sandhill Crane field trip and asked if we still wanted to have a Sandhill Crane field trip as well? The board thought we should offer our trip and Jim agreed to lead our field trip. An owl prowl will be scheduled for January and the annual bird banding will be February 23rd at Paul Dickson's farm.

Fund Raising: Christmas auction items are needed.

Ornament competition idea was announced and discussed. To participate make an ornament that is in some way bird or Bird Study Group themed. If you aren't crafty, don't worry – ornaments can be anything that you have bought/ found and modified (either slight, by writing BSG on a store bought ornament, or extreme modifications, your imagination is the limit). BSG members will be asked to vote for the best ornament at the Christmas party. The winner will receive a prize. The winning ornament will be sold during our live auction. All other ornaments will be sold during the silent auction.

The question was asked if we should consider fundraising outside of our club. The board requested a year to date statement to determine our financial situation.

Hospitality: Christmas party: The BSG will provide turkey and ham as well as drinks and paper goods. A sign up sheet will be passed around the regular meeting for other items. Volunteers are needed to help set-up.

Membership: The board suggested to promote membership we should increase member participation in the Wild Bird Center beginning birder walks.

New Business: Hubert suggests that we start an eagle count on the Red River.

Someone heard that the Kroger Cares Card program was defunct and would be replaced eventually by a new program. They are currently still taking the cards to the best of our knowledge.

BIRD REPORT – *compiled December 2, 2007*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

NEWSLETTER

Volume 22, Number 5

January 5, 2008

Next Meeting - January 8, 2008

Introduction to Dragonflies of Eastern United States: Identification, Behavior, and Ecology

by Paul Miliotis

JANUARY PROGRAM

When: Tuesday, January 8, 2008, 6:00 p.m.

Where: LSU in Shreveport Museum of Life Sciences.

In the program Paul will talk a little about Birds, other plants and animals, and ecological diversity in habitats and how dragonflies play a major part in these healthy ecosystems.

UPCOMING FIELD TRIPS AND EVENTS

OWL PROWL

Saturday, January 19, 2008, 3:00 p.m.

Leader – Nancy Menasco, 868-3255, nmcpa@aol.com

LOS WINTER MEETING, ALEXANDRIA, LA

Friday, January 25 - Sunday, January 27, 2008

CHENEYVILLE – SANDHILL CRANES

Saturday, February 9, 2008, 7:00 a.m.

Trip Leader – Jim Ingold – 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

GREAT BACKYARD BIRD COUNT

Friday, February 15 – Monday, February 18, 2008

Compiler – Cornell Laboratory of Ornithology/National Audubon Society; www.birdsource.org/gbbc

DICKSON DEER FARM BIRD BANDING

Saturday, February 23, 2008, 7:30 a.m.

UPCOMING FIELD TRIPS AND EVENTS

By Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

OWL PROWL

Saturday, January 19, 2008, 3:00 p.m.

Leader – Nancy Menasco, 868-3255, nmcpa@aol.com
Meet at the LSUS Museum of Life Sciences. The Bayou Pierre Unit of the Red River National Wildlife Refuge is the tentative destination but this is subject to change. We will see what other birds we can find before the sun goes down.

LOS WINTER MEETING, ALEXANDRIA, LA

Friday, January 25 - Sunday, January 27, 2008

The annual winter meeting of the Louisiana Ornithological Society returns to central Louisiana. With only a two-hour drive, hopefully many BSG members will be able to attend. Information and registration forms for the meeting are available on the Louisiana Ornithological Society website at www.losbird.org/meetings.htm. Headquarters for the meeting is the Clarion Hotel, 2716 North MacArthur Drive, Alexandria, LA 71303. A block of 30 rooms has been reserved; the rate is \$79.99 plus tax and includes breakfast. Call 318-487-4262 or 800-540-1880 to make reservations. Please mention that you are with the Louisiana Ornithological Society. Other

accommodations are available at the Best Western, 2720 North MacArthur Drive, 318-445-5530, and at the Holiday Inn Express, 2340 North MacArthur Drive, 318-487-9898.

Field trips on Saturday and Sunday include Lost Bottoms Bayou and Kincaid Lake, Cheneyville for Sandhill Cranes, Catahoula Lake, the NSU Aquaculture Research Center, and several Grant Parish National Forest locations for Red-cockaded Woodpecker.

The program on Friday night will take place at the Clarion Hotel and will include presentations by Laura Palasz on her research on Henslow's Sparrows in Louisiana and Jonathon Valente on his research on King Rails in Louisiana. The Saturday night banquet and program will be held at the Cajun Landing restaurant. Steve Shunk will speak on woodpecker conservation and ecology, including the trends of the Red-cockaded Woodpecker in Louisiana as well as in the U.S.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, a banquet on Saturday night, and organized field trips on Saturday and, for the winter meeting, also on Sunday. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October. The spring and fall meetings are held in Cameron Parish and the winter meeting is held in different locations around the state, usually the last weekend in January.

CHENEYVILLE – SANDHILL CRANES

Saturday, February 9, 2008, 7:00 a.m.

Trip Leader – Jim Ingold – 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

Meet at the LSUS Museum of Life Sciences. Tour the back roads of the Cheneyville-LeCompte area by car to see **Sandhill Cranes**, waterfowl, waders, and shorebirds wintering in the rice fields. Bring a lunch to eat in the car.

GREAT BACKYARD BIRD COUNT

Friday, February 15 – Monday, February 18, 2008

Compiler – Cornell Laboratory of Ornithology/National Audubon Society;
www.birdsource.org/gbbc

The Great Backyard Bird Count (GBBC) is eleven! The annual four-day count has expanded past the backyard to include anywhere you choose to bird. It's free and birders of all ages and degree of expertise can participate. We encourage you to consider getting involved this year. To learn more about the count and to enter your reports, go to www.birdsource.org/gbbc.

The BSG database lists over 175 species that have been found in our area in the month of February, including rarities. Download a February (or any other monthly) checklist from the BSG website at www.birdstudygroup.org/SelectMoCheck.html.

Complete instructions for participation are available on the GBBC website, but the guidelines are simple: For each day of the count period, report the highest number of a particular species recorded at each location you bird. For example, on day one of the count, in your backyard you have one **Northern Cardinal** at 10:00 a.m., five at noon, and two at 2:00 p.m. You report five **Northern Cardinals** for your backyard (the highest number present at one time) for day one. You go birding the same day at C. Bickham Dickson Park, where you spot six cardinals in one location. You report six **Northern Cardinals** for C. Bickham Dickson Park. You start all over again for days two, three, and four.

Record entry is easy. Go to www.birdsource.org/gbbc and click on the icon "**Submit your bird checklist**" near the top of the page. Fill out the questions about your location, local habitat, and count duration. Then enter your high counts for each species sighted for that day and location. You can submit one bird checklist for each day that you count or for each new area that you count in. For example:

- If you count on four days at one location, you'd submit four different checklists.
- If you count on four days at two different locations each day, submit eight checklists. And so on.

DICKSON DEER FARM BIRD BANDING

Saturday, February 23, 2008, 7:30 a.m.

Trip Leader – Jim Ingold, 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

Directions: Meet at Paul Dickson's Deer Farm on Leonard Road between LA 1 and Ellerbe Road. The entrance to the farm is a dirt/gravel road on the south side of the road; there is no sign. It is 1.1 miles west of the intersection of Leonard Road and LA 1 and 0.9 miles east of the intersection of Leonard Road and Ellerbe Road. Come and go as you like.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, January 5 and 19, and February 2 and 16, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

Minutes of the Regular Meeting

December 10, 2007, 6:30 p.m.

Museum of Life Sciences at LSUS

Hubert Hervey was the auctioneer at the annual December Christmas party. The president, Amanda Crnkovic, did not conduct a business meeting. Everyone enjoyed dinner and the auction.

Henslow's Sparrow© (Photo by Jeff Trahan, C. Bickham-Dickson Park, 30 December 2007)

BIRD REPORT – *compiled January 2, 2008*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

Wood Duck -- 10/07/2007 J&JT 20; 11/18/2007 J&JT 35; 11/25/2007 J&JT 10; 12/07/2007 J&JT 6; 12/09/2007 J&JT 3; 12/15/2007 J&JT 8; 12/15/2007 LR&MH 1

Next Meeting – February 12, 2007 **The Northwestern Louisiana Fauna: Past and Present** *by Mac Hardy*

FEBRUARY PROGRAM

More details on page 2

When: Tuesday, February 12, 2008, 6:00 p.m.
Where: LSU in Shreveport Museum of Life Sciences
Mac will be presenting data on changes in animal distribution and numbers in northwest Louisiana.

UPCOMING FIELD TRIPS AND EVENTS

11th ANNUAL GREAT BACKYARD BIRD COUNT
Friday, February 15 – Monday, February 18, 2008
Compiler – Cornell Laboratory of Ornithology/National Audubon Society; www.birdsource.org/gbbc

GREAT BACKYARD BIRD COUNT AT THE RED RIVER NATIONAL WILDLIFE REFUGE
Saturday, February 16, 2008, 8:00 a.m.-4:00 p.m.
Sponsors: Red River Refuge Alliance, U.S. Fish & Wildlife Service, Wild Bird Center of Shreveport
Contact – Nancy Menasco, 868-3255 (H/W), nmcpa@aol.com

DICKSON DEER FARM BIRD BANDING
Saturday, February 23, 2008, 7:30 a.m.
Trip Leader – Jim Ingold, 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

SCAVENGER HUNT
Saturday, March 29, 2008, 7:00 a.m.
Coordinator – Mac Hardy, 797-5338 (W), Laurence.Hardy@lsus.edu

GRAY FLYCATCHER

On Thursday, 24 January 2008, Terry Davis and Jeff Trahan found the first ever **Gray Flycatcher** (*Empidonax wrightii*) for the state of Louisiana. The bird was located north of Bossier City just east of Airline Drive on Deen Point Road. The bird has been seen by many birders in the state.

The below photograph was taken by Jeff Trahan.

BIRD STUDY GROUP PHONE NUMBERS AND MORE

UPCOMING FIELD TRIPS AND EVENTS

By Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

CHENEYVILLE – SANDHILL CRANES

Saturday, February 9, 2008, 7:00 a.m.

Trip Leader – Jim Ingold – 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

Meet at the LSUS Museum of Life Sciences. Tour the back roads of the Cheneyville-LeCompte area by car to see **Sandhill Cranes**, waterfowl, waders, and shorebirds wintering in the rice fields. Bring a lunch to eat in the car.

ELEVENTH ANNUAL GREAT BACKYARD BIRD COUNT

Friday, February 15 – Monday, February 18, 2008

Compiler – Cornell Laboratory of Ornithology/National Audubon Society;

www.birdsource.org/gbbc

The Great Backyard Bird Count (GBBC) is eleven! The annual four-day count has expanded past the backyard to include anywhere you choose to bird. It's free and birders of all ages and degree of expertise can participate. We encourage you to consider getting

involved this year. To learn more about the count and to enter your reports, go to www.birdsource.org/gbbc.

The BSG database lists over 175 species that have been found in our area in the month of February, including rarities. Download a February (or any other monthly) checklist from the BSG website at: www.birdstudygroup.org/SelectMoCheck.html.

Complete instructions for participation are available on the GBBC website, but the guidelines are simple: For each day of the count period, report the highest number of a particular species recorded at each location you bird. For example, on day one of the count, in your backyard you have one **Northern Cardinal** at 10:00 a.m., five at noon, and two at 2:00 p.m. You report five **Northern Cardinals** for your backyard (the highest number present at one time) for day one. You go birding the same day at C. Bickham Dickson Park, where you spot six cardinals in one location. You report six **Northern Cardinals** for C. Bickham Dickson Park. You start all over again for days two, three, and four.

Record entry is easy. Go to www.birdcount.org and click on the icon "**Submit your bird checklist**" near the top of the page. Fill out the questions about your location, local habitat, and count duration. Then enter your high counts for each species sighted for that day and location. You can submit one bird checklist for each day that you count or for each new area that you count in. For example:

- If you count on four days at one location, you'd submit four different checklists.
- If you count on four days at two different locations each day, submit eight checklists. And so on.

GREAT BACKYARD BIRD COUNT AT THE RED RIVER NATIONAL WILDLIFE REFUGE

Saturday, February 16, 2008, 8:00 a.m.-4:00 p.m.

Sponsors: Red River Refuge Alliance, U.S. Fish & Wildlife Service, Wild Bird Center of Shreveport

Contact – Nancy Menasco, 868-3255 (H/W), nmcpa@aol.com

You are invited to help count birds during the 11th Annual Great Backyard Bird Count at the Red River National Wildlife Refuge Headquarters in Bossier City. Come walk the trails in the pecan grove or try out the new trail along the river.

Schedule of Activities:

8:00 a.m. until – Breakfast with the Birds. Doughnuts, shade-grown coffee, hot tea, and hot chocolate.

8:15 a.m. – Bird Walk. Children accompanied by an adult are welcome.

All Day – Feeder watch, walking trails, informal refuge tours.

Directions to the refuge: From the intersection of US 71 (Barksdale Boulevard) and Jimmie Davis Highway (LA 511) in Bossier City, go south about one-half mile on US 71 and turn right (west) on Sunflower Road. Proceed to the end of the road; the gravel/dirt road through the gate across the cattle guard leads into the refuge. You'll see the Red River National Wildlife Refuge entrance sign as you enter. The Headquarters Unit is currently closed to the public except for special events, such as the Great Backyard Bird Count event.

DICKSON DEER FARM BIRD BANDING

Saturday, February 23, 2008, 7:30 a.m.

Trip Leader – Jim Ingold, 797-5236 (W), 742-5067 (H), james.ingold@lsus.edu

Directions: Meet at Paul Dickson's Deer Farm on Leonard Road between LA 1 and Ellerbe Road. The entrance to the farm is a dirt/gravel road on the south side of the road; there is no sign. It is 1.1 miles west of the intersection of Leonard Road and LA 1 and 0.9 miles east of the intersection of Leonard Road and Ellerbe Road. Come and go as you like.

SCAVENGER HUNT

Saturday, March 29, 2008, 7:00 a.m.

Coordinator – Mac Hardy, 797-5338 (W), Laurence.Hardy@lsus.edu

Meet at the LSUS Museum of Life Sciences. The scavenger hunt is a competition among teams of two or more observers to find a specific number of species of birds from a list obtained at the start of the competition. The event will be timed and will require the use of a cell phone. The winning team will be the team with the highest number of listed species (verified by at least two team members) when the competition ends at 12:00 noon. The event will culminate with lunch (Dutch treat for the losers) at the winning team's choice of restaurant. The losing teams will chip in to buy lunch for the winning team.

The list of birds to be located will be provided in sealed envelopes by a local birding expert. Sign up for this event at the BSG February or March meeting or call or e-mail Mac Hardy.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, February 2 and 16, and March 1 and 15, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

The February 16 bird walk will take place at the Red River National Wildlife Refuge Headquarters Unit in conjunction with the Great Backyard Bird Count. See the GBBC article above for more information.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

ABOUT THE BIRDS AND THE BEES

By Hubert Hervey

I

The old man remembers happy days as a boy sitting on the front porch of the old home and watching the Chimney Swifts. They nested in the brick chimney that was responsible for keeping much of the house warm in the winter. This was summertime, and the living was not exactly easy, but it was good. They didn't even know they were living in the "good old days", but compared to today . . . they were. Just before dark the swifts would fly in a circular pattern, with the chimney as the approximate center, and then pitch into the dark sooty area below to spend the night on their hard mud nests. Nests brought in small, muddy beak full by small, muddy beak full following showers when mud could be found. Their chattering was a pleasant sound, in those days before television dominated the night sounds.

The Chimney Swifts (birds) definitely had a strong attachment to the honey bees (bees) living in the hollow oak tree directly in front of the porch swing where the boy often sat. There was an opening in the leaves of the tree that the boy was watching. The bees had to return to their hive by crossing that opening. The birds knew this. The birds and the bees were on a collision course. Flying full speed ahead the swift would open its mouth very wide, and a bee would splat on the back of the birds open maw. No time to activate the stinger, just *sphlatt*.

This happened all day long, to a seemingly endless supply of bees. He knew a little about the birds and the bees.

II

As the boy grew older he acquired some pigeons. He enjoyed listening to them, as the male strutted about cooing to the female of his choice. Billing and cooing was invented by pigeons, copied by people. He built a special pen for his pigeons behind the hen house, where they would be safe from owls, and other night predators. He also looked forward to the time of eating fried squab. He had heard that the dark meat was as good as Morning Dove, and you didn't have to worry about biting down on a bird shot pellet. As we will see, he never found out if squab was good or not.

He learned about bee keeping. He had a dozen bee hives he would rob every summer. This provided sweetening for the many desserts that his mother prepared for the family of five. A sixth was to come along later. The aviary (birds) was located a little in front of the apiary (bees), in the pecan orchard. His mother had developed a special recipe for pecan pie, using honey from his bees and pecans from the orchard. He had to protect the pecan crop from the marauding crows. They would carry off the entire crop if not held in check with the aid of a shotgun. A hive of black bees had been successfully removed from a post oak tree in the wood lot. The tree had been split into fence posts by a tenant farmer. He learned to waste nothing on the farm. The wild bees had delivered many a sting to the boy as they defended their queen and honey supply, but he managed to get them moved to the apiary.

The time for collecting the honey had arrived. The boy filled his smoker with soiled rags, and got a good smoke going with every puff of the bellows. He wore his sting proof gloves, bee hat and veil, and coveralls carefully tucked inside his rubber boots. He thought he was safe, even from the vicious wild bees. All went well with the tame, yellow, Italian bees. Puff smoke, let bees calm down, open hive with hive tool, remove frames loaded with honey, brush off bees, leave frames with brood comb, and replace removed frames with new frames filled with wired foundation wax. No problem; until he got to the black bees' hive. The smoker just barely held the angry bees at bay as they peered through the cracks between the frames at the top of the hive. Five thousand pairs of eyes watched and waited for a chance to fly out and employ five thousand stingers in protection of their queen and honey (God and Country). The unforgettable sound of angry buzzing bees increased. A gap in the

cloud of smoke showed the black bees an opening. His coveralls had a slit in the side for access to inside pants pockets. It was summer and all the boy had on under the coveralls were his BVD's. Seeing this weakness in his defense, the bees swarmed in promptly employing those stingers. Forgetting all thought of robbing bees, the boy took off running trailed by a swarm of angry bees. He left many of the bees behind when he ran through a fig tree with its many trunks. This knocked his hat and veil off. Now the remaining bees could attack his head as well as his torso. As he ran, he slung off the thick sting proof gloves. He needed his hands for crushing wild bees. One hundred yards in record time, and the bees still chased and stung. Another hundred yards and he ran out of the coveralls, so he could kill those inside bees. He could not outrun the bees; puffing, he backed up against a big pecan tree trunk. With his backside protected he swatted the bees, until none were left. He had over twenty stings, and his body was reacting badly to so much poison. Within a year, he learned he had developed a severe sensitivity to bee sting poison and had to give up beekeeping.

But the bees were not finished, because this is a story about the birds - and the bees. The bees turned their anger on the pigeons and the birds went into a panic. The boy saw his pigeons flying wildly, followed by lines of bees. There was no escape from the bees. By night time all of the pigeons were dead, stung to death by the angry native black bees. He never raised pigeons again. He returned the black bees to the wild. The boy knew a little more about the birds and the bees, but not all.

LOUISIANA BIRDING TRAILS

The state Department of Tourism has published the 3 additional Louisiana Birding Trails on their website. Go to: www.louisianatravel.com/play/louisiana_birding.cfm

Also, the **BirdLouisiana** web page has been updated. The birding trails can be easily found on the home page main menu under "La. birding maps". Check out the new & improved website at: <http://www.birdlouisiana.com/>

The above information is taken from emails posted to LABIRD by Jane Patterson and Dennis Demcheck.

Minutes of the Regular Meeting
January 8, 2008, 6:30 p.m.
Museum of Life Sciences at LSUS

Program—Paul Miliotis presented an interesting talk on dragonflies and damselflies.

Newsletter—The president, Amanda Lewis, implored club members to contribute articles for publication in the newsletter. Articles should be sent to the newsletter editor, Jim Ingold.

Field Trips—Nancy Menasco reviewed upcoming field trips. Nancy will lead an owl prowl on January 19. Jim Ingold will lead a trip to Cheneyville in search of **Sandhill Cranes** on February 19. Saturday, February 23, is the date for the bird banding at the Dickson deer farm on Leonard Road. Also, the LOS winter meeting will be held the last weekend in January in Alexandria. Terry Davis then said that he will be leading a field trip to the Shreveport Regional Airport Saturday, January 12, to search for **Smith’s Longspurs**. Terry said that this field trip will involve strenuous walking with little access to restrooms.

Bird Talk—Jeff Trahan reported several good birds at Bickham Dickson Park. They are **Surf Scoter, Eared Grebe, Semipalmated Plovers, and Henslow’s Sparrow**. Rosemary Seidler said that Bickham Dickson Park has plenty of ducks this year. Paul Miliotis reported that he and Matt White saw **Vaux’s Swifts** at Bickham Dickson Park and Matt White obtained good photographs of them. Neither Paul nor Matt heard them vocalize. Jean Trahan reported that she and Jeff Trahan saw some unusual species on the Bossier-Caddo-Bienville Christmas Bird Count. She said that they saw four immature **Bald Eagles, Black-necked Stilts, seven Plegadis ibis, and Great-tailed Grackles**. Terry Davis said that he and Jeff Trahan got high counts of several birds last week including 648 **White-crowned Sparrows** in the vicinity of Elm Grove in south Bossier Parish. Jim Ingold reported about 60 **House Sparrows** at his bird feeders in Bossier City. Ellen Middleton said that she has two **Red-breasted Nuthatches** coming to her feeders in Broadmoor Terrace.

BIRD REPORT – compiled February 7, 2008

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

BIRD STUDY GROUP

NEWSLETTER

Volume 22, Number 7

March 3, 2008

Next Meeting – March 11, 2008
More than ducks and turkeys:
How the LADWF is working to conserve all bird species
By Michael Seymour

MARCH PROGRAM

When: Tuesday, March 11, 2008, 6:00 p.m.
Where: LSU in Shreveport Museum of Life Sciences

Find out what 'nongame' birds are, and learn what the Louisiana Department of Wildlife and Fisheries is doing for them. Michael Seymour, Avian Biologist with the LADWF will describe the Nongame Program's current and future projects.

UPCOMING FIELD TRIPS AND EVENTS

BREAKFAST WITH THE BIRDS (Rescheduled)
RED RIVER NATIONAL WILDLIFE REFUGE
Saturday, March 15, 2008, 8:00 a.m.-2:00 p.m.
Sponsors: Red River Refuge Alliance, U.S. Fish & Wildlife Service, Wild Bird Center of Shreveport
Contact – Nancy Menasco, 868-3255 (H/W), nmcpa@aol.com

SCAVENGER HUNT
Saturday, March 29, 2008, 7:00 a.m.
Coordinator – Mac Hardy, 797-5338 (W), Laurence.Hardy@lsus.edu

LOUISIANA ORNITHOLOGICAL SOCIETY
SPRING MEETING, CAMERON PARISH, LA
Friday, April 25 – Sunday, April 27, 2008

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

BREAKFAST WITH THE BIRDS (Rescheduled) RED RIVER NATIONAL WILDLIFE REFUGE

Saturday, March 15, 2008, 8:00 a.m.-2:00 p.m.

Sponsors: Red River Refuge Alliance, U.S. Fish & Wildlife Service, Wild Bird Center of Shreveport

Contact – Nancy Menasco, 868-3255 (H/W), nmcpa@aol.com

This event was rained out in February and has been rescheduled. Come visit the Red River National Wildlife Refuge Headquarters in Bossier City. Walk the trails in the pecan grove or try out the new trail along the river. **The event will be canceled in case of rain.**

Schedule of Activities:

8:00 a.m. until – Breakfast with the Birds. Doughnuts, shade-grown coffee, hot tea, and hot chocolate.

8:15 a.m. – Bird Walk with Dennis Forshee. Children accompanied by an adult are welcome.

All Day – Feeder watch, walking trails, informal refuge tours.

Directions to the refuge: From the intersection of US 71 (Barksdale Boulevard) and Jimmie Davis Highway (LA 511) in Bossier City, go south about one-half mile on US 71 and turn right (west) on Sunflower Road. Proceed to the end of the road; the gravel/dirt road through the gate across the cattle guard leads into the refuge. You'll see the Red River National Wildlife Refuge entrance sign as you enter. The Headquarters Unit is currently closed to the public except for special events, such as Breakfast with the Birds.

SCAVENGER HUNT

Saturday, March 29, 2008, 7:00 a.m.

Coordinator – Mac Hardy, 797-5338 (W), Laurence.Hardy@lsus.edu

Meet at the LSUS Museum of Life Sciences. The scavenger hunt is a competition among teams of two or more observers to find a specific number of species of birds from a list obtained at the start of the competition. The event will be timed and will require the use of a cell phone. The winning team will be the team with the highest number of listed species (verified by at least two team members) when the competition ends at 12:00 noon. The event will culminate with lunch (Dutch treat for the losers) at the winning team's choice of restaurant. The losing teams will chip in to buy lunch for the winning team.

The list of birds to be located will be provided in sealed envelopes by a local birding expert. Sign up for this event at the BSG March meeting or call or e-mail Mac Hardy.

LOUISIANA ORNITHOLOGICAL SOCIETY FALL MEETING, CAMERON PARISH, LA Friday, April 25 – Sunday, April 27, 2008

Information and registration forms for the annual spring meeting are or will be available at the Louisiana Ornithological Society website at:

<http://losbird.org/meeting.htm>. The BSG has reserved the Rockefeller Wildlife Refuge. Lodging is \$10 a night per person in dormitory-style rooms. Please sign up for the Rockefeller at the BSG April meeting or call the LSUS Museum at 797-5338.

The Friday and Saturday night meetings will be held in Creole. Friday night's program is "Seven Louisiana Ladies Boating Down the Amazon River in Brazil with

Cameras and Binoculars.” Joelle Finley will share the adventures of the seven Louisiana ladies as they explore the fauna, flora and indigenous peoples of the great Amazon Basin. Refreshments will be served. On Saturday, Melanie Driscoll, coordinator of the Louisiana IBA Program sponsored by the National Audubon Society and housed in the Bird Resource Center of LSU, will bring us up to date on the Important Bird Areas in Louisiana. A dinner of brisket, rice dressing, baked beans, green salad, dessert, and a drink will be provided for \$10.00.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, organized field trips on Saturday and, for the winter meeting, also on Sunday, and a banquet on Saturday night. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October; and the winter meeting is held in different locations around the state, usually the last weekend in January. The location of the next winter meeting has not been determined.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, March 1 and 15, and April 5 and 19, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

The March 15 bird walk will take place at the Red River National Wildlife Refuge Headquarters Unit in conjunction with Breakfast with the Birds. See the article above for more information.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

BIRD BANDING AT DICKSON DEER FARM

By Jim Ingold

The annual banding of sparrows was held at Paul Dickson's deer farm on Saturday 23 February 2008. Highlight of the day was a **Red-breasted Nuthatch**. Other birds banded included **White-crowned Sparrow**, **White-throated Sparrow**, **Swamp Sparrow**, **Song Sparrow**, **Red-winged Blackbird**, **Yellow-rumped Warbler**, and **Northern Cardinal**. Two **White-crowned Sparrows** that were banded last year as second year birds were retrapped. Besides Bird Study Group members, we were joined by teachers, students and parents of Curtis Elementary School in Bossier Parish. All of the students were able to hold sparrows and they seemed to be having the time of their life.

WAXING AND WANING WITH HUMOR

By Hubert Hervey

I got an exact count on the flock of Cedar Waxwings, and there were only 24, not the expected 25. Where was the lost bird? It had forgotten to spread the wax on its wings this morning, got caught in a shower and could not fly until its wings dried out.

It watched the Double-crested Cormorant spread its wings wide to the morning sun, did the same, and soon found its wings were dry. Then the cormorant dived into the water and came up with a fish. The waxwing thought that would be easier than finding a tree full of wild cherries. Besides, the cherries sometimes made it feel woozy, and fall out of the sky, and he didn't believe in partaking of alcoholic beverages. So he dived into the water after an easy fish meal. And a big bass fish had an easy meal.

I heard a thud against the kitchen window. There was a young Carolina Chickadee lying, unmoving, on the porch. Seldom do birds here hit the window so hard as to commit suicide. I went out and picked up the tiny bundle of gray feathers, and set it upright in my hand. It opened its eyes, but would/could not move. So I put it upright on a chair on the porch. Twenty minutes later it had flown back to its parent, full of tales about monsters that swat birds out of the sky, with unseen swiftness.

That night I heard panic-stricken screaming coming from the den, so I rushed in ready for any emergency. I expected to see a seven-foot rat snake that could have come down the chimney, but no, the cat had a Chimney Swift in its jaws. The swift had come down the

chimney, worked its way around the heat-skewed damper, and into the room. Perhaps due to all the screaming, the cat let the swift loose swiftly. Trying to fly off the swift found that the sky had an unexpected top to it, the bird managed to cling to the wall, where I captured it. Upon release, the bird flew off into the dark. The poor cat has never tasted anything but cat food since we rescued it as a starving kitten. It will probably never have a clue as to the good tasting meal it missed. Good old smoky, sooty, tasting bird meat, nearly like KFC used to serve before the competition caused them to have to put more meat on their scrawny chickens. I used to claim they were serving sparrows, but management has assured me they always sold chicken.

NIGHTJAR SURVEY

(The following was posted to OKBIRDS 26 February 2008 – The Editor)

In the spring of 2007, The Center for Conservation Biology constructed the Nightjar Survey Network to begin the process of collecting data on the population distribution and population trends of Nightjars across broad regions of the United States. The Network was initially introduced into the southeast and is being expanded in 2008 to provide coverage throughout the contiguous United States.

The support I have received from many state and federal agency personnel in the Southeast has been great and very helpful. I cannot thank you all enough.

I have added a brief report on findings from the initial year of survey on the project website.

The Nightjar Survey Network relies on volunteer participation by conservation-minded citizens, biologists, and other like-minded groups to adopt and conduct survey routes. Surveys are conducted much like the United States and Canada Breeding Bird Surveys except for important modifications to accommodate the biology of Nightjars. Nocturnal behaviors of Nightjars are strongly influenced by moonlight. Activities such as calling and foraging increase under bright moonlight and breeding may be directly tied to the lunar schedule. The Nightjar Survey Network was designed to take advantage of this life history trait by restricting surveys to bright moonlit nights. This protocol substantially improves the accuracy and precision of surveys by reducing the systematic errors associated with moonlight and will further act to strengthen the statistical power needed to draw conclusions from collected data.

The Nightjar Survey Network has both short-term and long-term objectives that are considered spatially and temporally scalable. As soon as a significant portion of the Network routes are annually surveyed, they will begin to provide results of Nightjar population status for local regions and for broader geographic areas.

Short-term objectives have 4-5 year time horizons and include:

- 1) Gaining a better understanding of the population distribution of Nightjars across their breeding ranges.

- 2) Learning how the composition of different habitats in a landscape influences Nightjar abundance.

- 3) Improving the performance of the survey design.

Long-term objectives have time horizons of 10 yrs or greater and include:

- 1) Determining the scale and magnitude of population changes.

- 2) Providing alarm signals at specific locations if Nightjars are becoming imperiled.

I welcome any interest, comments, or suggestions, and any distribution of the program by Southeast PIF members to the general public is valuable. I have also created a 2-page flyer that contains much of the info above as advertisement of the project. This is available for download on the website.

Please feel free to email me and I hope you visit the network's website if you haven't yet for more details: <http://ccb.wm.edu/nightjars.htm> (older Southeastern Nightjar Survey link is also still active.)

Minutes of the Regular Meeting
 February 12, 2008, 6:30 p.m.
 Museum of Life Sciences at LSU

Program—Mac Hardy talked about northwestern Louisiana fauna and flora past and present.

Bird Records—Mac Hardy said that he has hired a student to enter bird records. He then asked that anyone who has old bird records that need to be entered into the database should get them turned in.

Field Trips—Nancy Menasco reviewed upcoming field trips. She said that the Great Backyard Bird Count will be February 15-18. She said that the Red River Refuge will host an open house Saturday, February 16, at 8:00 a.m., at the headquarters unit of the refuge. Jim Ingold will band birds at Paul Dickson’s deer farm on Saturday, February 23. Also, Mac Hardy will have details about a birding scavenger hunt at the next meeting. The scavenger hunt is scheduled for March 29.

Refreshments—Amanda Lewis said that we should thank Ellen Middleton for refreshments at the meeting.

Bird Talk – Linda Adrion reported seeing an orange headed **Red-bellied Woodpecker**. Shirley Huss said that her **Purple Martins** have returned. Ellen Middleton still has two **Red-breasted Nuthatches** at her backyard feeders. Rosemary Seidler had four **Pine Siskins** at her feeders and also reported two **Greater Roadrunners** on I-49 south of Shreveport. Hubert Hervey said that he saw a western *auduboni* **Hermit Thrush** behind the Stonewall Post Office. Nancy Menasco said that one of her friends reported a **Bald Eagle** nest on Lake Bistineau.

MINUTES OF THE BOARD MEETING

February 5, 2008
 Museum of Life Sciences at LSU

Board members participating in the meeting were Mac Hardy, Jeff Trahan, Nancy Menasco, Amanda Lewis, Jim Ingold, Jerry Bertrand, and Hubert Hervey. Only seven board members were present, so the board did not have a quorum to make decisions.

Programs – Mac Hardy said that he had commitments for speakers for the February and March meetings. Mac will speak at the February meeting.

Bird Records – Mac Hardy said that the number of records being submitted to the database is decreasing.

Field Trips – Nancy Menasco reported that she has no field trips scheduled for March and April. She says that she needs volunteers to lead trips.

Website –Nancy Menasco and Jerry Bertrand say that they have been making major updates to the website in the past two weeks. They say that it might be possible to sell items on the site.

Least Terns – Hubert Hervey has heard that there will probably be a gravel and sand mining venture on sandbars at Carolina Bluffs which is about 15 miles north of Cash Point. They will remove approximately 18,000 cubic yards of sandbar. This could be detrimental to Least Terns since they use the sandbars for nest sites.

BIRD REPORT – compiled February 29, 2008

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer’s initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

LOUISIANA ORNITHOLOGICAL SOCIETY FALL MEETING, CAMERON PARISH, LA FRIDAY, APRIL 25 – SUNDAY, APRIL 27, 2008

Information and registration forms for the annual spring meeting are or will be available at the Louisiana Ornithological Society website at <http://losbird.org/meeting.htm>. The BSG has reserved the Rockefeller Wildlife Refuge. Lodging is \$10 a night per person in dormitory-style rooms. Please sign up for the Rockefeller at the BSG April meeting or call the LSUS Museum at 797-5338.

The Friday and Saturday night meetings will be held in Creole. Friday night's program is "Seven Louisiana Ladies Boating Down the Amazon River in Brazil with Cameras and Binoculars." Joelle Finley will share the adventures of the seven Louisiana ladies as they explore the fauna, flora and indigenous peoples of the great Amazon Basin. Refreshments will be served. On Saturday, Melanie Driscoll, coordinator of the Louisiana IBA Program sponsored by the National Audubon Society and housed in the Bird Resource Center of LSU, will bring us up to date on the Important Bird Areas in Louisiana. A dinner of brisket, rice dressing, baked

beans, green salad, dessert, and a drink will be provided for \$10.00.

Membership in LOS is not required to participate in any of the LOS meetings, but you are encouraged to join to support the activities of our state society. Annual dues are \$20 for a regular membership and \$25 for a family membership. LOS is for birders of all levels, amateur or professional. Three meetings are held each year with programs on Friday and Saturday nights, organized field trips on Saturday and, for the winter meeting, also on Sunday, and a banquet on Saturday night. The spring meeting is the last weekend in April; the fall meeting is the last weekend in October; and the winter meeting is held in different locations around the state, usually the last weekend in January. The location of the next winter meeting has not been determined.

INTERNATIONAL MIGRATORY BIRD DAY CELEBRATION

RED RIVER NATIONAL WILDLIFE REFUGE

Saturday, May 3, 2008, 8:00 a.m.-3:00 p.m.

Sponsors: Red River Refuge Alliance, U.S. Fish & Wildlife Service, Wild Bird Center of Shreveport

Contact – Nancy Menasco, 868-3255 (H/W), nmcpa@aol.com

Red River Refuge Alliance website:

www.redriverrefugealliance.org

Celebrate IMBD at the refuge! Doughnuts, shade-grown coffee, hot tea, and hot chocolate will be served in the morning beginning at 8:00 a.m. There will be bird walks, refuge tours, and activities for children. Bring your camera and get a head start on the 2008 Red River National Wildlife Refuge Photo Contest. Bird Walk with Dennis Forshee of the Wild Bird Center begins at 8:30 a.m. Children accompanied by an adult are welcome.

Directions to the refuge: From the intersection of US 71 (Barksdale Boulevard) and Jimmie Davis Highway (LA 511) in Bossier City, go south about one-half mile on US 71 and turn right (west) on Sunflower Road. Proceed to the end of the road; the gravel/dirt road through the gate across the cattle guard leads into the refuge. You'll see the Red River National Wildlife Refuge entrance sign as you enter. The Headquarters Unit is currently closed to the public except for special events, such as the IMBD Celebration.

NORTH AMERICAN MIGRATION COUNT (NAMC)

Saturday, May 12, 2007

Compiler – Hubert Hervey, 925-9249, hawkeyehub@att.net

You bird where you want to for as long as you can. Contact Hubert for forms and instructions. Be sure to keep separate records for each parish and location you bird. Participants will meet at around 8:00 p.m. for supper and to call the list at the home of Larry and Anne Raymond, 6675 North Park Circle, Shreveport, LA 71107. Larry’s phone number is 929-3117.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, April 5 and 19, and May 3 and 17, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

The May 3 bird walk will take place at the Red River National Wildlife Refuge Headquarters Unit at 8:30 a.m. in conjunction with the International Migratory Bird Day Celebration. See the article above for more information on the IMBD.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

**Menasco Team Wins Scavenger Hunt
By Mac Hardy**

Nancy Menasco and Jerry Bertrand found only 12 of the 20 species targeted for the scavenger hunt and still won the competition and the free lunch. The other two teams found 8 and 10 of the species. Overall, the six species (with the numbers seen on this date in the past in parentheses) **not found** during the scavenger hunt were: **American White Pelican** (50), **Eastern Screech-Owl** (2), **Pileated Woodpecker** (5), **Golden-crowned Kinglet** (2), **Hermit Thrush** (9), and **Gray Catbird** (0). The **White-breasted Nuthatch** found by the winning team was the first for this date (March 29). The least common species found (for this date in our database history) was **Scissor-tailed Flycatcher** (1) by Ingold and Davis. The next least common (4 records each)

species found were **Eastern Phoebe** and **Eastern Towhee**. Thanks to all of the participants and good luck on next year’s scavenger hunt.

BIRD REPORT – compiled April 2, 2008

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

NORTH AMERICAN MIGRATION COUNT (NAMC)*Saturday, May 10, 2008*

Compiler – Hubert Hervey, 925-9249, hawkeyehub1@bellsouth.net

You bird where you want to for as long as you can. Contact Hubert for forms and instructions. Be sure to keep separate records for each parish and location you bird. Participants will meet at around 8:00 p.m. for supper and to call the list at the home of Larry and Anne Raymond, 6675 North Park Circle, Shreveport, LA 71107. Larry's phone number is 929-3117.

NABA BUTTERFLY COUNT*Sunday, June 15, 2008*

Compiler – Jeff Trahan, 868-7360, jftrahan@bellsouth.net

This is the eighth annual North American Butterfly Association (NABA) count for Shreveport. Butterfly counts are very similar to bird counts. The 15-mile diameter count circle for the Shreveport count is centered on the intersection of Norris Ferry Road and Overton Brooks Road. This area includes much of southeastern Shreveport, Wallace Lake, Keithville, and a small portion of Bossier Parish. If you live within the

circle, you may participate by counting butterflies in your yard or you may count in a designated portion of the circle. Contact Jeff for forms and instructions. Participants will gather at the home of Jeff and Jean Trahan at 505 Americana in Shreveport at 6:00 p.m. for the count tally.

WILD BIRD CENTER EVENTS**Beginner Bird Walks***Saturday, May 3 and 17, June 7 and 21, 2008, 8:00-10:00 a.m.*

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

The May 3 bird walk will take place at the Red River National Wildlife Refuge Headquarters Unit at 8:30 a.m. in conjunction with the International Migratory Bird Day Celebration. See the article above for more information on the IMBD.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

SWAINSON'S HAWKS AND BIG DAY, 20 APRIL 2008

by Hubert Hervey

Hubert Hervey and Terry Davis set out early for a day of birding pleasure. By the time we finished our day had totaled 132 species of birds. We birded in Caddo Parish, and finished up in Bossier Parish. The biggest excitement for the day was locating 35 **Swainson's Hawks** in northern Caddo Parish. They were scattered out along the Red River valley farmlands from Sentell Road to near Missionary Plantation. Some of the hawks were on the plowed ground; some were feeding, some took flight as we approached and often soared up into the skies and disappeared to the north. The total of 35 **Swainson's Hawks** is the highest in the Bird Study Group data base. Previous high counts are 19 SWHA

John McBride et al. Gilliam Levee Rd, Caddo Parish on April 17, 2005, and 14 SWHA Jeff and Jean Trahan, Robson Rd, Caddo Parish on May 1 2005. All other records are for one to three birds and are from Caddo, DeSoto and Red River Parishes. All records are during spring migration except two in early October during fall migration and one record that Pat and I had on August 15, 2004 of two birds perched in trees by the Red River north of the Highway 2 Bridge, suggesting the possibility of a nesting population in north Louisiana .

I also suspect that 132 species in one day is a pretty decent number for a two parish Big Day. We started in Bossier City, Stoner Woods, Cross Lake, then north to Dixie, up the River Road to Missionary Plantation on Arkansas line, the crossed over to Wardview area to finish up the afternoon. We had only four duck species, all the bitterns and herons except **Tricolored Heron**, ten raptors, eight sandpipers, four doves, four vireos, seventeen warblers, and nine sparrow species. There were good movements of **Eastern Kingbirds**, **Indigo Buntings**, **Yellow-rumped Warblers**, **Warbling Vireos**, **Nashville Warblers**, and **Lark Sparrows**. New arrivals included **Dickcissels**, several warbler species, **Painted Buntings**, **American Bittern**, three **Least Bitterns**, and **Yellow-breasted Chats**. Late lingering species were **Northern Harrier**, **Virginia Rail**, **Sora** in large numbers (34), **Brewer’s Blackbird**, and **Swamp Sparrow**. Best birds not yet mentioned included **Black-crowned Night-Heron**, **Osprey**, both yellowlegs, **Sprague’s Pipit** (8), **Golden-winged Warbler**, **Tennessee Warbler**, **Prairie Warbler**, **Swainson’s Warbler**, and **Grasshopper Sparrow** (6) at the sod farm. An Osprey flew by The Cove on Cross Lake with a yellow bass (sand bass), it perched in a tree, and was then harassed by **Fish Crows**, and relocated several times. The complete list has been entered in the BSG data base.

Minutes of the Regular Meeting
 April 8, 2008, 6:30 p.m.
 Museum of Life Sciences at LSUS

Plant Sale—Instead of a regular program with a speaker, the club had a plant sale. Plants to be sold were brought by club members. After the plant sale, Hubert Hervey reviewed statistical data from the Great Back Yard Bird Count.

LOS Meeting—Mac Hardy said that the spring meeting of the Louisiana Ornithological Society will take place

on the weekend of April 25 and 26. He has received word that the club could use the Rockefeller National Wildlife Refuge as a place to stay.

Bird Talk – Susan Martin reported a **Rose-breasted Grosbeak** in her back yard today. Linda Adrion said that she still has an orange-headed **Red-bellied Woodpecker** at her feeders. Hubert Hervey said that he and Terry Davis saw a **White-tailed Kite**, three **Bald Eagles** and a **Swainson’s Warbler** in the Wardview area in north Bossier Parish Thursday. Mac Hardy reports **Great-horned Owls** calling nightly at his house. Ron Martin saw two **Mississippi Kites** yesterday.

BIRD REPORT – *compiled April 2, 2008*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.

June 3, 2008

Next Meeting – June 9, 2008
PANAMA’S CANOPY TOWER & CANOPY LODGE
MR. CLYDE MASSEY

JUNE PROGRAM

When: Tuesday, June 9, 2008, 6:00 p.m.
Where: LSU in Shreveport Museum of Life Sciences

In October 2007, I traveled to Panama with VENT in search of tropical birds. Our base of operations during the first week was the fabulous Canopy Tower, a renovated radar station in the heart of the rainforest in Soberania National Park near Panama City. Looking out from the top of the canopy tower offers a unique view of the surrounding rainforest and its birds. Many of the canopy species can be observed at eye level and the views of the surrounding mountains and the Panama Canal are breathtaking.

The second week we traveled about 60 miles west of Panama City to a town called El Valle, where the Canopy Lodge is located. This new lodge was built from the ground up by Raul Arias de Para, who also renovated the Canopy Tower. Its location is higher in elevation than the canopy tower and offers a different group of birds. The Canopy Lodge has feeders that allow close views of many tropical birds.

Panama has over 900 species of birds in a compact geographic area which makes finding birds rather easy. Central Panama, along the Canal Zone, boasts a high number of species with a mix of Central and South American birds. Its modern infrastructure combined with a growing interest in ecotourism make birding a pleasure.

Please join us at the June meeting as we explore the forests and birds of Central Panama.

UPCOMING FIELD TRIPS AND EVENTS

NABA BUTTERFLY COUNT

Sunday, June 15, 2008

Compiler – Jeff Trahan, 868-7360,
 jftrahan@bellsouth.net

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, May 3 and 17, June 7 and 21, 2008, 8:00-10:00 a.m.

UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. In case of bad weather, contact the designated leader to see if the field trip will take place.

NABA BUTTERFLY COUNT

Sunday, June 15, 2008

Compiler – Jeff Trahan, 868-7360,
jftarahan@bellsouth.net

This is the eighth annual North American Butterfly Association (NABA) count for Shreveport. Butterfly counts are very similar to bird counts. The 15-mile diameter count circle for the Shreveport count is centered on the intersection of Norris Ferry Road and Overton Brooks Road. This area includes much of southeastern Shreveport, Wallace Lake, Keithville, and a small portion of Bossier Parish. If you live within the circle, you may participate by counting butterflies in your yard or you may count in a designated portion of the circle. Contact Jeff for forms and instructions. Participants will gather at the home of Jeff and Jean Trahan at 505 Americana in Shreveport at 6:00 p.m. for the count tally.

WILD BIRD CENTER EVENTS

Beginner Bird Walks

Saturday, June 7 and 21, July 5 and 19, 2008, 8:00-10:00 a.m.

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70th Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

NORTH AMERICAN MIGRATION COUNT COMPILES 16 YEARS

by Hubert Hervey

It is hard to believe the BSG has been participating in the NAMC for sixteen years. Time flies when you are having fun. It began in 1993 when I agreed to head up the NAMC effort for Caddo Parish, and has since expanded to a count encompassing most of northwestern Louisiana. We usually have six parishes to report. I believe it was in 1994 that the LOS had the leader of the NAMC as a speaker and he told us that he always wanted to be a ruler, so from now on we could consider him as King Stalsz. He said we could expect a book on the results in about ten years. I am fully aware that we who expect books about birds to be published in a timely fashion in Louisiana are doomed to be disappointed. I have written my book, not much about birds, in a period of three months and it is now at the publishers. I have tried to "Google" up NAMC and have met with defeat; it is located there but defies my efforts to update any real data related reports from national headquarters. So I keep on reporting our NAMC data to Marty Floyd and wondering when we can have some published results to our efforts. The first two years I received published hints at some of the new findings that were being unveiled by the NAMC, such as circum-gulf migrating species and trans-gulf species, but those reports dried up.

I have decided that we have enough data for our area that I will compile what I can and give you some meaningful findings. You are free to draw your own conclusions, but I may add a few thoughts as we go along. Warning:

this is a more detailed report than I have given to BSG in the past.

Table 1
Species Counted in Northwestern Louisiana on NAMC day each Year:

Year	No. Species	Year	No. Species	No. Individuals
1993	111	2001	144	
1994	108	2001	140	
1995	119	2003	124	
1996	132	2004	146	
1997	127	2005	152	11,716
1998	137	2006	154	10,712
1999	164	2007	153	14,287
2000	138	2008	162	13,942

We can tell that the first two or even three years we were getting to know our areas and how to get the best areas covered most thoroughly. 2008 was second (162 species) only to 1999 with 164 species. What is amazing about this year is that we had nobody on Red River, which always gives us several exclusive birds. We were fortunate to have birds grounded by weather that was followed by north winds so the migrant birds remained in greater numbers than usual. The table above can be our guide for how well we are doing in future years. Although I can't prove it statistically I am also convinced that we have better numbers if our count is scheduled during the first half of the possible time frame.

The next table shows our fourteen highest count species. We have more colonial nesting birds now than in 1993, and this clearly shows up in the tremendous increase in **Cattle Egret, and Cliff Swallow**. I am always encouraged to see resident nesting species such as **Northern Cardinal, Northern Mockingbird, Carolina Chickadee, and Mourning Dove** holding a fairly steady count over this length of time. I see our species of concern as being **Purple Martin, Eastern Kingbird,** and perhaps **Indigo Bunting**.

Heron rookeries are located at Mibermel (near Powhatan), Lock and Dam 4 entry road, and Cross Lake Dam. We did not count rookeries at Long Lake in Red River Parish nor the Bayou Pierre Wildlife Management Area DeSoto Parish unit. The Mibermel rookery is now host to six pairs of **Great-tailed Grackles** nesting among the herons and egrets, and two pairs of Tree Swallows nesting in cavities on the south end of the lake. These rookeries add to numbers of **Little Blue**

Heron, Anhinga, and even White Ibis. The decline in **Great Egrets** is due to deterioration of the rookery at Buzzard Island on Cross Lake. **Dickcissel** numbers vary with the progress of haying operations, as they require tall grass for nesting. When conditions allow the number is high.

The **Cliff Swallow** story is most amazing, with colonies located at LA 2 Bridge, Lock and Dam 5 and 4, Jimmy Davis Bridge, Coushatta Bridge (not counted) and I-220 at Red River and Cross Lake. The decline in 2004 occurred because of illegal shooting at Cattle Island that caused desertion of the nesting area with a reluctance to return evident also in 2005.

The five year averages in the last two columns are interesting to study as trends can be readily seen. Note: 2004 was used in both averages because it was abnormal enough to skew either set if not included in both.

Table 2 can be found on the page 4.

MINUTES OF THE BOARD MEETING

May 6, 2008

Museum of Life Sciences at LSUS

Board members participating in the meeting were Mac Hardy, Jeff Trahan, Jean Trahan, Nancy Menasco, Amanda Lewis, Jim Ingold, Jerry Bertrand, Hubert Hervey, John Dillon, Bill Hall, and Silvieira Hunt.

Treasurer's Report –Jean Trahan reported that for the month ending April 30, 2008, the club had \$6,162.65 in the bank. In addition, we had \$252.95 and \$452.54 in prepaid expenses at the post office and LSUS printing, respectively. The fund balance is \$6,162.65. The bank balance is higher than in the past because of one large donation to the club.

Donations—After some discussion, a motion was made and approved to donate \$100.00 to each of the following organizations: Baton Rouge Audubon Society (for use at Peveto Woods), Walter B. Jacobs Nature Park, Minden High School Nature Club, Caroline Dorman Nature Preserve, and the Ouachita Mountain Biological Station.

(Note: minutes are continued on page 5)

Nominations—Amanda Lewis said that three board members will be rotating off of the board. They are Mac Hardy, Dennis Forschee, and Lily Poole. Mac Hardy and Dennis Forschee have agreed to serve again. Rachel Demascal agreed to accept a nomination as board member. A motion was made to accept the nomination of Mac Hardy, Dennis Forschee and Rachel Demascal for board membership. The motion was approved.

Field Trip Chair – Nancy Menasco said that she would not serve in the position as field trip chair next year. John Dillon agreed to be the new field trip chair.

BSG Website—Jerry Bertrand said that he was having billing difficulties with Network Solutions and informed the board that he was changing to Globat.

Suggestions—Nancy Menasco suggested that club members should wear name tags at all regular meetings of the club. She also said that the Louisiana Department of Culture, Recreation, and Tourism has grants to give for Nature Festivals. A Purple Martin festival was suggested and discussed.

NAMC—Hubert Hervey reminded everyone that the North American Migration Count would take place May 10 this year. He will distribute information via BirdAlert.

Minutes of the Regular Meeting
May 13, 2008, 6:30 p.m.
Museum of Life Sciences at LSUS

Program—Dr. Steve Gabrey from Northwestern State University talked about birds in coastal Louisiana and the effects of winter burning on **Seaside Sparrows**.

Refreshments—Amanda Lewis said that Mac and Marilyn Hardy provided refreshments for the meeting.

Board Elections--Amanda Lewis said that three board members will be rotating off of the board. They are Mac Hardy, Dennis Forschee, and Lily Poole. The board nominated Mac Hardy, Dennis Forschee and Rachel Demascal to replace them. There were no nominations from the floor and the three club members who were nominated by the board were elected to the board.

Donations—Amanda Lewis reported that the board voted to donate \$100.00 to each of the following organizations: Baton Rouge Audubon Society (for use at Peveto Woods), Walter B. Jacobs Nature Park, Minden

High School Nature Club, Caroline Dorman Nature Preserve, and the Ouachita Mountain Biological Station.

Field Trips—Nancy Menasco reviewed upcoming field trips: a) The annual NABA Butterfly Count will be held June 15, and b) The Wild Bird Center conducts field trips the first and third Saturday of every month from 8:00 a.m. to 10:00 a.m., weather permitting. Meet at the Wild Bird Center in the University Place Shopping Center.

NAMC Report—Hubert Hervey said that observers at the recent North American Migration Count reported 162 species. This was the second highest number of species reported at this event for northwestern Louisiana. The best bird was **Cassin's Sparrow** found by Terry Davis. Other noteworthy species were **Purple Gallinule (3)**, **White-winged Dove**, **Swainson's Hawk**, **Yellow-headed Blackbird**, and **Bobolink**.

Bird Talk—Amanda Lewis reported that the **Cassin's Sparrow** was still present the morning of this meeting. Ron Martin said that there may be a **Mississippi Kite** nest in one of the tall trees at the A. C. Steere School grounds. Linda Adrion at first thought she saw a bear in Claiborne Parish, but it turned out to be two **Wild Turkeys**. Silviera Hunt spotted a **Baltimore Oriole** nectaring at her hummingbird feeder. This was a new species for her yard.

BIRD REPORT – compiled June 2, 2008

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15th of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.
