### UPCOMING FIELD TRIPS AND EVENTS

by Nancy Menasco

Beginning birders are welcome on all field trips. Membership in the BSG is encouraged but is not required for participation in field trips. Field trips will **LEAVE** the designated meeting place at the time posted for each field trip. Plan to arrive early for field trip orientation and any carpooling/caravanning arrangements.

What to bring on field trips: binoculars, two-way radios, scope, if you have one, snacks, and drinks. Unless otherwise noted, field trips will take place rain or shine, so bring rain gear if the weather's threatening.

#### EDDIE D. JONES NATURE PARK

*Saturday, November 5, 2005, 8:00 a.m.*

Trip Leader – Larry Raymond, 929-2806 (W), 929-3117 (H), LRRaymond@aol.com

Meet at the LSUS Museum of Life Sciences. Eddie Jones is managed as an adventure park and has over 15 miles of trails for hiking, mountain biking, and horseback riding. Habitat ranges from open field to edge of forest, second growth, and mature forest. There are large expanses of switch cane, two ponds, and a couple of large creeks. Park specialties include **Wild Turkey**, **Northern Bobwhite**, **Sedge** and **Marsh Wrens**; **LeConte's Sparrow** is also found here. There are restrooms available at the park headquarters area.

### WICHITA FALLS, TEXAS & SOUTHWESTERN OKLAHOMA BIRDING

*Friday, November 25 – Sunday, November 27, 2005*

Trip Coordinator – Nancy Menasco, 868-3255, nmcpa@aol.com

On this post-Thanksgiving trip, we will have the opportunity to visit a variety of habitats, including old-growth bottomland hardwoods on a privately-owned 400-acre tract of land bordering the Red River north of Wichita Falls; nearby prairie dog towns also on private land; the mountains and grasslands of the Wichita Mountains National Wildlife Refuge near Lawton, Oklahoma; and the Hackberry Flat Wildlife Management Area wetlands near Frederick, Oklahoma. Our Texas host will be James Burden, brother of Dr. Beverly Burden of LSUS. According to Beverly, James is famous for his smoked brisket and he has promised to fire up the smoker for us. Southwestern Oklahoma birding veteran, Kurt Meisenzahl, will be our guide to the Wichita Mountains and Hackberry Flat.

Target birds include **Cinnamon Teal**, **Ferruginous Hawk**, **Rough-legged Hawk**, **Golden Eagle**, **Prairie Falcon**, **Burrowing Owl**, **Short-eared Owl**, **Northern Flicker** (Red-shafted variety), **Mountain Bluebird**, **Rock Wren**, **Canyon Wren**, **Rufous-crowned Sparrow**, **American Tree Sparrow**, and **Lapland, Chestnut-collared, McCown's, and Smith's Longspurs**. At the Wichita Mountains NWR, we can also expect to see the herds of bison, elk, deer, and longhorn cattle for which the refuge is noted.

We will travel to Wichita Falls on Friday, bird all-day Saturday and at least half-day Sunday; however, you may leave whenever you like. Driving time to Wichita Falls not including stops is about five-and-a-half hours.

**RSVP to Nancy Menasco for further details, including hotel accommodations and caravanning.**

**WINTER/CHRISTMAS BIRD COUNTS:**

Contact the compiler listed below for each count or sign up at a BSG meeting. Participants will be assigned an area or teamed with other birders. Beginning birders are encouraged to participate. Bird counts are fun and a great way to see and learn to identify lots of birds with the assistance of seasoned birders.

**CADDO LAKE WINTER WARM-UP BIRD COUNT**

*Saturday, December 3, 2005*

Compiler – Dorothy Metzler of Northeast Texas Field Ornithologists (NETFO)

Louisiana Coordinator – Jim Ingold, 797-5236 (W), 742-5067 (H), [jingold@pilot.lsus.edu](mailto:jingold@pilot.lsus.edu)

The BSG will once again count birds in the Louisiana portion of the circle. Participants will meet at Dawn's Caddo Crossing for supper and to call the list. If you are unable to attend, you may meet Jim at Horace Downs Park near the Caddo Lake Dam around 4:00 p.m. to turn in your list.

**CLAIBORNE CHRISTMAS BIRD COUNT**

*Thursday, December 15, 2005*

Compilers – Nancy Menasco, 868-3255, [nmcpa@aol.com](mailto:nmcpa@aol.com), and Mary Ellen (ME) Lewis, 927-9280, [melewis180@aol.com](mailto:melewis180@aol.com)

Participants will meet at the home of ME and Fred Lewis on Lake Claiborne for supper and to call the list. Contact Nancy or ME for information in regard to lodging for Wednesday and/or Thursday night. Most of the free lodging is already reserved, but there *may* be something left. Lake Claiborne State Park (1-877-226-7652) also has very nice cabins available at \$65 per night.

**SHREVEPORT CHRISTMAS BIRD COUNT**

*Saturday, December 17, 2005*

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), [lyon5516@bellsouth.net](mailto:lyon5516@bellsouth.net)

Participants in this count, the oldest continuously run count in Louisiana, will meet at the home of Charlie and Kimberly Lyon at 8617 W. Wilderness Way for supper and to call the list.

**NATCHITOCHEs CHRISTMAS BIRD COUNT**

*Sunday, December 18, 2005*

Compiler – Charlie Lyon, 865-2674 (H), 222-8421 (W), [lyon5516@bellsouth.net](mailto:lyon5516@bellsouth.net)

Participants will meet at a local restaurant in Natchitoches for supper and to call the list.

**BOSSIER-CADDO-BIENVILLE CHRISTMAS BIRD COUNT (BCBCBC)**

*Monday, January 2, 2006*

Compiler – Paul Dickson, 797-7900 (W), 798-1000 (H), [Paul@morrisdickson.com](mailto:Paul@morrisdickson.com)

Participants will meet at Paul Dickson's home at 10455 Ellerbe Road (across from Holy Angels) for supper and to call the list.

**WILD BIRD CENTER EVENTS****Beginner Bird Walks**

*Saturday, November 5 and 19, 2005, 8:00-10:00 a.m.*

The Wild Bird Center conducts field trips the first and third Saturday of every month, weather permitting. Meet at the store in the University Place Shopping Center (also known as the Target Shopping Center) at the corner of Youree Drive and East 70<sup>th</sup> Street. Destinations vary according to local sightings and may include local parks, country roads, or a great backyard. Loaner binoculars are available.

**Beginner Bird Feeding Class**

*Saturday, November 12, 2005, 10:00 a.m.*

Victoria Williams will be our guest speaker on backyard bird feeding. Victoria has enjoyed feeding backyard birds for years and brings a wealth of information and helpful insights. You don't have to be a beginner to enjoy this talk. We encourage more experienced birders to share their experiences; after all, every backyard is a little different. Topics include seed selection, presentation, habitat, pest control, and more.

For more information on any Wild Bird Center event, call Dennis or Janice Forshee at the Wild Bird Center, 318-797-BIRD (2473).

**Bluebird Skies****The 2005 Big Sit!**

*by Nancy Menasco*

It was one of those gorgeous early fall days we so often get here in Louisiana. There was no steady all-day rain to keep us hunkered down on the office porch as in the Big Sit of 2004 but neither was there a strong-winded cold front in the forecast to bring waves of migrating raptors and geese as in 2002. The weather seemed almost too good. No rain, no wind, no clouds, nothing but blue skies did we see! Without the stimulus of some unusual weather phenomenon, would this be just another ho-hum birding day? The C. Bickham

Dickson Park (CBD) Big Sit record was 70 species in 2003; could we even come close?

It would be many hours before we would know the answer to that question when Jerry Bertrand, Charlie Lyon, Dennis Forshee, and I arrived at 6:30 a.m. during what's known as nautical twilight. Nautical twilight is "the time period when the sun is between 6 and 12 degrees below the horizon at either sunrise or sunset. The horizon is not defined and the outline of objects might be visible without artificial light. Ordinary outdoor activities are not possible at this time without extra illumination." The key word in the last sentence is "ordinary;" birding in the dark is not considered by most to be an ordinary outdoor activity. In the period before sunrise, illumination comes not through the eyes but through the ears. And so it was that the first birds of the 2005 Big Sit were a pair of **Eastern Screech-Owls** whinnying in the woods close by. A **Black-crowned Night-Heron** quawked (well, that's the way they spell it in the Thayer's/Cornell Lab of Ornithology *Birds of North America eField Guide*), a pair of **Wood Ducks** flew over, whoo-eeking as they flew, and a **Great Blue Heron** squawked or croaked, depending on whom you ask.

As light filled the sky, the countdown (countup?) began in earnest, 18 species by 7:00 a.m., 36 species at 7:30 a.m., and 47 species by 8:00 a.m., including four species new to the count, **Bank Swallow**, **Black-and-white Warbler**, **Blue Grosbeak**, and **Rose-breasted Grosbeak**. In harmony with the bluebird skies, **Eastern Bluebird**, present for all four previous Big Sits, was #32 on this year's list. As things began to slow down, three new species were added between 8:00 a.m. and 9:00 a.m. and another three by 10:00 a.m. The latter three caused quite a stir; a new-to-the-count **Philadelphia Vireo** and **Red-eyed Vireo** joined a **White-eyed Vireo**, seen earlier in the day, in plain sight in the thicket just across the road from the circle. And while most of us were still staring at the thicket hoping for another revelation, Amanda Crnkovic spotted a bird flying to the top of a tall tree and added **Vermilion Flycatcher** to the Big Sit list. This marked the second appearance by a male **Vermilion Flycatcher** during a CBD Big Sit; the previous sighting occurred in 2002. Rosemary Seidler was the only other person to catch a glimpse of the bird before it disappeared, but later in the day, it returned to spend some time flycatching from one of the light poles in the field.

Encouraged by the addition of eight species in the next hour, it looked like a new record might be within our reach as shortly after 11:00 a.m., the total stood at 61 species. The afternoon doldrums set in early though; in the next six hours, we added only four birds to the list,

the last a **Brown-headed Cowbird** (#65) spotted lurking in the field by Kevin Hunter. The cowbird was so well hidden that someone had to sneak up on it out in the field to finally confirm its identification. The raptor extravaganza of prior years never materialized. In fact, with only seven species we experienced the second lowest raptor count in the five-year history of the CBD Big Sit (four raptor species in 2004, ten in 2003, nine in 2002, and eight in 2001).

The day was waning when a small flock of eleven **Cattle Egrets** (#66) and even fewer **Little Blue Herons** (#67) flew over us enroute to their nighttime abode. On a side note, when a previously coastal species, **Tricolored Heron** (#12), at 17 total birds for the day, outnumbered each of the other heron and egret species, something's up. Several **Common Nighthawks** (#68) soon made their hoped-for appearance, looping and twisting in the darkening sky. John McBride called our attention to a quacking **Mallard** (#69), a species that had eluded us all day.

Seemingly deserted by **Great Horned Owl**, our dawn and/or dusk mainstay every year except for the rain-soaked debacle of 2004, our quest to break or even tie the record appeared over. Big Sitters slipped away into the night until at 7:15 p.m., only Jim Ingold, Jeff Trahan, Jerry and I remained. Jim, providentially facing in what turned out to be the right direction, became the hero of the day when he suddenly spotted an **American Woodcock** (#70) fluttering across the field toward the pond. A second woodcock followed before the rest of us could turn around. Jerry and I lingered until 8:00 p.m., surrounded by at least four calling Eastern Screech-Owls, but no other owl species appeared or called. Most likely, they were frightened away by the herd of tiny screech-owls. Hah! We settled for tying the 2003 record.

A record 24 Sitters braved the blue skies to participate in this year's Sit (the previous record was 20 Sitters in 2003). Jeff and Jean Trahan's grandson, T.J. Schneider, now four and a half, made his perennial Big Sit appearance. My grandson, Alex Menasco, who will be three in December, participating in his second Big Sit, invited me to go birdwatching among the trees on the north side of the field where we found an **Eastern Wood-Pewee** (#64). A cell phone call to Jerry alerted the circle and several people were able to observe the bird as it flew to another clump of trees.

New Sitters this year were Dennis Forshee, Rosana Shelby, Janis Harrison, Kevin Hunter, Silviera Hunt, Nan Franks, and John McBride. Veteran Big Sitters not previously mentioned included Ron Martin, Linda Adrion, Jean Trahan, ME Lewis, Suzanne Menasco, Shirley Huss, Mac Hardy, and Susan Martin.

Postscript: How unique were the sightings of our circle? As of November 1, we were one of only three circles to report **Anhinga**, the other two circles being located in South Carolina and Florida. We joined two Arizona circles in reporting **Vermilion Flycatcher** and only two other circles reported **Bank Swallow**. BSG species reported by only four circles were **American Woodcock**, **Philadelphia Vireo**, **Summer Tanager**, and **Rose-breasted Grosbeak**. **Tricolored Heron** appeared on only five lists.

## MINUTES OF THE BOARD MEETING

October 4, 2005

### Museum of Life Sciences at LSUS

Board members participating in the meeting were Ron Martin, Jeff Trahan, Nancy Menasco, Lily Poole, Hubert Hervey, Silviera Hunt, Amanda Crnkovic, Michele Andrews, and Mac Hardy.

**Treasurer's Report** – Jeff Trahan reported for Jean Trahan, who could not be present, that for the month ending September 30, 2005, the club had \$3,325.13 in the bank. In addition, we had \$382.82 and \$796.91 in prepaid expenses at the post office and LSUS printing, respectively. The fund balance is \$3,325.13.

**Board of Directors Vacancy** – Lily Poole reported that Susan Martin would volunteer to serve in the board vacancy. Nancy made a motion to accept the nomination. The motion passed.

**Programs** – Nancy Menasco reported that Dennis Forshee will speak at the October meeting. His topic will be an optics workshop for beginners. The February program will be given by Richard Gibbons

**Birding Trail** - Charlie Lyon will nominate sites for the Central and North Louisiana Birding Trail that are not in the Hot Spots publication. Roger Breedlove will nominate spots from central Louisiana.

**LOS Winter Meeting** – The dates for the LOS Winter Meeting have been set. The meeting will take place January 27-29. Jim Ingold has reserved the LSUS Science Auditorium. The banquet will held in the LSUS Student Union Building. The meeting committee has met and is making plans.

**BSG 20<sup>th</sup> Anniversary** – The BSG 20<sup>th</sup> anniversary will occur in the fall of 2006. We will take advantage of the occasion to market patches and t-shirts. Ron Martin has obtained information from the Baton Rouge Audubon

Society concerning patches. The cost of 250 patches is \$400.00. A motion was made to provide money of up to \$400.00 for 250 patches. This motion must be approved by the membership because it is for an amount of above \$100.00. Jim Ingold has information about where to get t-shirts. Nancy Menasco and Jim Ingold will handle the t-shirts. There was a question about what kind of gift to give charter members, but that question remained unanswered.

**Club Service** – Amanda Crnkovic suggested that the club do a service trip to Peveto Woods in Cameron Parish.

**Field Trips** – Nancy Menasco suggested that we do a field trip to Wichita Falls over the Thanksgiving weekend to see **Burrowing Owls**.

## MINUTES OF THE REGULAR MEETING

October 11, 2005, 7:00 p.m.,

### Museum of Life Sciences at LSUS

**Program** – Dennis Forshee gave a program called “Optics for Beginning Birders.”

**Field Trips** – Nancy Menasco mentioned a field trip to Wichita Falls, Texas and to Hackberry Flats in Oklahoma that will occur on the weekend of November 25-27. Club members, who are going to attend the fish fry at the Headquarters Unit of the Red River Wildlife Refuge on Saturday, October 29 at 3:00 p.m., must RSVP to Nancy. Nancy also reminded everyone that the club will host the winter meeting of the Louisiana Ornithological Society on the last weekend in January

**Nominating Committee** – Lily Poole said that Susan Martin volunteered to be a member of the board. Susan was then elected to the board by a unanimous vote of the membership present at the meeting

**Bird Talk** – Nancy Menasco and Jerry Bertrand saw an **American Bittern** while riding the roads at the Red River Wildlife Refuge, Bayou Pierre Unit. As they drove it followed and circled the truck. When they stopped, it landed on the road near them.

Is Your Membership Expired?  
Remember to check your membership  
expiration date located on the mailing label.

**TELL THE BSG**

- ◆ Volunteers are needed for both the library and the programs committees. If you would like to help please contact any BSG board member.
- ◆ Snacks and auction items are needed for the November meeting.
- ◆ Reminder: collect auction items (or a surprise box) for the December meeting.

Send announcements to Amanda by phone at 797-5338 or by email at [newsletter@birdstudygroup.org](mailto:newsletter@birdstudygroup.org)

**BIRD REPORT** – *compiled November 2, 2005*

Use the bird report to see what other birders have been seeing and where to go find the bird you want to see. Observers are abbreviated by the first and last initials. Dates and localities of observations are summarized under the observer's initials. Sightings are arranged by species. Following each species is a line of data in the following format: date, initials of the observer, number of birds observed, initials of another observer, number of birds they observed, etc. For the number of birds observed, a 1 is used for both 1 bird and for numbers not reported by the observer. For example: 01/12/99 BB 2 means that on January 12, 1999, BB saw two birds. Then by looking on the observer list, located after the sightings, you can determine that BB is Bob Birder and on 1/12/99 he was birding C. Bickham Dickson Park.

Report bird records for the newsletter to Mac Hardy by the 15<sup>th</sup> of each month. All bird records reported here are observations of the observers and are therefore the responsibility of the observer.
